Exploring Megalithic Europe May 06 2021 Abundant prehistoric remains survive in the wide landscapes of Europe, but none are arguably as fascinating or awe-inspiring as the “megalithic” (after the Greek megas: great, and lithos: stone) monuments built by the people who lived here during the three hugely important periods of European prehistory known respectively as the Neolithic, the Copper Age, and the Bronze Age. These huge, prehistoric stone structures can still be found scattered in their thousands across Europe and provide a tentative but evocative link to their builders, and to Europe’s distant past. From the Mediterranean islands to the colder climes of Scandinavia, Exploring Megalithic Europe takes readers to many European countries, examining both famous and lesser-known megalithic monuments and looking at what insights these remarkable reminders of prehistoric life may provide into the ancient communities responsible for their construction.

Barging Round Britain Feb 27 2023 Barging Round Britain by David Bartley is a beautifully-illustrated guide to a unique and fascinating part of our history: the canal network. Explore the people and places that have forged this national treasure, from the birth of the Industrial Revolution to the leisure explosion on our waterways today. Fully-illustrated with maps and photographs, the book will trace canal routes across the UK, from the Georgian grandeur of Bath to the dramatic splendour of the Scottish Highlands. David Bartley's Barging Round Britain includes a foreword and chapter introductions by the presenter of the TV series, John Sergeant.

Report of the Annual Meeting Dec 13 2021

Exploring Antarctica, Grades 5 - 8 Sep 10 2021 Take students in grades 5–8 on a field trip without leaving the classroom using Exploring Antarctica! This 48-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed response. Map projects and hands-on activities engage students in learning about the physical, political, and human geography of Antarctica. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.

Narrative of the Canadian Red River Exploring Expedition of 1857 Dec 21 2019

Britain's Best Canal Journeys Apr 17 2022 Today there are more craft on our canals than even during their industrial heyday. Thanks to the pleasures of boating, our canals are vibrant and thriving once again. Yet this would have astounded the people who built them and lived hard lives to keep the boats and their cargo moving. In Barging Round Britain John Sergeant sets out both to explore eight of the best trips among our more than three thousand miles of canals and to tell the fascinating story of their origins and workings. Opening up a too-often neglected world right on our doorstep, he seeks out pleasures and sights while stopping to examine the part the canals and their extraordinary builders played in our industrial heritage - from Josiah Wedgwood's need to safely transport his fragile bone china, to engineer James Brindley's visionary solutions to complications of geology and landscape. Exploring the history of British inland navigation through eight of the most celebrated waterways - including the Caledonia, Grand Union and the Trent and Mersey Canals - travelled by John Sergeant in the ITV series Barging Round Britain, this book will delight seasoned boaters and encourage those dreaming of their first canal holiday to dip their toes in the water. It is the book for anyone with a passion for Britain and its waterways. There is something very British in the way we cherish the canals. It takes us back to a time when the pace of life was slower. . .'

Forging a British World of Trade Apr 05 2021 Brexit is likely to lead to the largest shift in Britain's economic orientation in living memory. Some have argued that leaving the EU will enable Britain to revive markets in Commonwealth countries with which it has long-standing historical ties. Their opponents maintain that such claims are based on forms of imperial nostalgia which ignore the often uncomfortable historical trade relations between Britain and these countries, as well as the UK's historical role as a global, rather than chiefly imperial, economy. Forging a British World of Trade explores how efforts to promote a 'British World' system, centred on promoting trade between Britain and the Dominions, grew and declined in influence between the 1880s and 1970s. At the beginning of the twentieth century many people from London, to Sydney, Auckland, and Toronto considered themselves to belong to culturally British nations. British politicians and business leaders invested significant resources in promoting trade with Australia, Canada, New Zealand, and South Africa out of a perception that these were great markets of the future. However, ideas about promoting trade between 'British' peoples were racially exclusive. From the 1920s onwards, colonized and decolonizing populations questioned and challenged the basis of British World networks, making use of alternative forms of international collaboration promoted firstly by the League of Nations, and then by the United Nations. Schemes for imperial collaboration amongst ethnically 'British' peoples were hollowed out by the actions of a variety of political and business leaders across Asia and Africa who reshaped the functions and identity of the Commonwealth.

Exploring Natural Language May 26 2020 ICE-GB is a 1 million-word corpus of contemporary British English. It is fully parsed, and contains over 83,000 syntactic trees. Together with the dedicated retrieval software, ICECUP, ICE-GB is an unprecedented resource for the study of English syntax. Exploring Natural Language is a comprehensive guide to both corpus and software. It contains a full reference for ICE-GB. The chapters on ICECUP provide complete instructions on the use of the many features of the software, including concordancing, lexical and grammatical searches, sociolinguistic queries, random sampling, and searching for syntactic structures using ICECUP's Fuzzy Tree Fragment models. Special attention is given to the principles of experimental design in a parsed corpus. Six case studies provide step-by-step illustrations of how the corpus and software can be used to explore real linguistic issues, from simple lexical studies to more complex syntactic topics, such as noun phrase structure, verb transitivity, and voice.

Interculturality in Learning Mandarin Chinese in British Universities Nov 12 2021 As China and Chinese language learning moves centre stage economically and politically, questions of interculturality assume even greater significance. In this book interculturality draws attention to the processes involved in people engaging and exchanging with each other across languages, nationalities and ethnicities. The study, which adopts an ecological perspective, critically examines a range of issues and uses a variety of sources to conduct a multifaceted investigation. Data gathered from interviews with students of Mandarin sit alongside a critical discussion of a wide range of sources. Interculturality in Learning Mandarin Chinese in British Universities will be of interest to students and academics studying and researching Chinese language education, and academics working in the fields of language and intercultural communication, intercultural education and language education in general.

Exploring Gender and Sikh Traditions Jan 02 2021 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies. The intersections of religion and gender are here explored, based on an understanding that both are socially constructed. Far from being static, as so often presented in world religions textbooks, religious traditions are constantly in flux, responding to historical, cultural and social contexts. So too is 'the' Sikh tradition in terms of practices, ideologies, rituals, and notions of identity. We here conclude that 'a' Sikh tradition does not exist; instead, there are numerous forms thereof. In this volume, Sikhism is presented as a collection of 'Sikh traditions'. Gender studies—in line with women's liberation, masculine and feminist studies have long examined and have long deconstructed the patriarchy, but also move to identify other subordinate-dominant relations between individuals. Indeed, there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression. Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis, as is evidenced by the varied contributions in this volume.

The Building of Britain and the Empire Jun 19 2022

Exploring the Planets May 18 2022 The planets fascinate us, and naturally we care about our own Earth, and things like how well we can forecast the weather and whether climate is really changing. Exploring the Planets offers a personal account on how the space programme evolved. It begins in the era of the first blurry views of our Earth as seen from space, and ends with current plans for sophisticated robots on places as near as our neighbours Venus and Mars and as far away as the rainy lakelands of Saturn's planet-sized moon Titan. Examining the scientific goals of these complex voyages of discovery, and the joys and hardships of working to achieve them. The Space Age is now about 50 years old and for those lucky enough to be part of it at its inception, it's filled a worklong lifetime. Today, several satellites around the Earth have studied the atmosphere and the climate using instruments on board that the author helped design and build. 'Deep space' missions were embarked upon to visit the planets: all of the major bodies (six planets, the Moon and minor bodies, asteroids and comets) of the classical Solar System have been scrutinised close-up by experiments built in various laboratories worldwide. Most of the narrative is based on the author's experiences at the world's space agencies, research labs, and conferences, and at other places as diverse as Cape Canaveral and No. 10 Downing Street.

Michelin Green Guide Great Britain Oct 31 2020 Newly updated Green Guide Great Britain in eBook format features dozens of different cultures and landscapes that make up Great Britain. Discover its 3 unique countries through Michelin's driving and walking tours, celebrated star-rating system for attractions and activities, respected maps, full-color photos, and recommendations for places to stay and eat. Explore the British Museum, beach-hop on the Pembrokeshire coast, or sample Scotch whisky along The Whisky Coast Trail. With this guide you'll see the best of Great Britain. In this eBook you'll find: • Full-color photos, and plenty of detail travelers look for. • New "Inspiration" section for inspired travel ideas. • Practical Information section, now split between "Before You Go" and "On Arrival" for quicker reference. • Attractions reviewed and rated, using Michelin's celebrated star-rating system. • Walk-throughs of major museums, galleries, churches and attractions. Illustrations and floor plans are often included. • Michelin walking and driving tours with directions, mileage and travel time. Journey into the past with a stroll along the 1.2 mile historic London Wall Walk, or drive along the bonny banks of Loch Lomond for scenic pleasure. • Comprehensive illustrated sections on modern-day Britain, its history (with time line), politics, art and culture—all written by experts in their fields. • Sidebars throughout the guide on such intriguing topics as well-dressing in Wales to whisky trailing in Scotland. • Visitor and contact information given for every attraction, opening hours, entry fees, tour times, phone, website. • Recommendations for great places to eat and stay in each region. • Detailed information on transportation, road regulations, plus distance and temperature charts, health and safety tips, event calendar, and useful websites. • Colorful, easy-to-read Michelin area maps, detailed city maps, relief maps and themed maps including climate and time zones. Download onto any kind of eReader (tablet or smartphone), and you're set to go. Use the guide to orient yourself at any time with a treasure trove of 50 detailed maps, even if you're offline with no Wi-Fi or 3G connection. With the interactive navigation, it's easy to move within the guide. Click from the index to a point of interest or from a sight description to its location on the map. With one touch, you can even phone an establishment directly from the page or click through to a website for more information. No matter what eReader you use, the Green Guide Great Britain eBook helps you craft a trip at your own pace and enjoy all of Britain's charms.

North American Exploration Sep 29 2020 The three volumes of North American Exploration appraise the full scope of the exploration of the North American continent and its oceanic margins from prior to the arrival of Columbus until the end of the nineteenth century. More than an assessment of historical events, these volumes portray the process of exploration. Without forgetting the romance of discovery, the authors recognize that exploration encompasses a great deal more than the adventures themselves. All explorers are conditioned by the time, place, and circumstances of their efforts; these determine objectives, the behavior of explorers, and the consequences of their discoveries. ø The second volume includes the exploration of North America from the Spanish entrada of the sixteenth century to the British and Russian explorations of the Pacific coastal regions at the end of the eighteenth century? a time during which North America was largely defined and understood in terms of advancing scientific viewpoints during the European Enlightenment. Discovery gave way to Exploration and supposition to understanding.

Major Energy Companies of Europe 1994 Oct 11 2021 a

TOWARDS A SOCIOLOGY OF DYSLEXIA: Exploring Links between Dyslexia, Disability and Social Class Jul 20 2022 The aim of this book is to establish a sociological understanding of dyslexia within adulthood. The research explores the effects dyslexia has on the lives of individuals within an educational and employment context. A feature of the study is that it draws from literature within the social model of disability rather than employing the psycho-educational approach that dominates contemporary research. The study has placed dyslexia within the field of disability studies in an attempt to understand how this syndrome can be interpreted through the concept of disabling barriers. In order to explore dyslexia within the field of disability studies the book employs a biographical narrative approach. The book discusses the importance of identifying and supporting people with dyslexia within education and employment. By acknowledging that dyslexia is affected by issues of socio-economic status, the research has broadened the debate in relation to labelling individuals within education. The study has developed a pro-labelling approach based on evidence from the social and educational perspectives in order to represent the voices of participants within this study.

Lonely Planet Great Britain Jan 22 2020 Lonely Planet Great Britain is your passport to the most relevant, up-to-date advice on what to see and skip, and what hidden discoveries await you. Ponder the mysteries of Stonehenge, explore the many sides of Edinburgh, or try new versions of British pub favourites at a gastropub; all with your trusted travel companion.

Gender and the Liberal Democrats Dec 01 2020 Women and the Liberal Democrats is a timely and original exploration of women's representation and the third party in UK politics. Based on extensive research, it is the first comprehensive gendered analysis of the Liberal Democrats and the research highlights specific institutional factors within the Liberal Democrats that directly impact upon the party's low number of women MPs. It explores the extent to which the party's ideology, culture and organisation are dominated by a prevailing masculine bias and questions why the Liberal Democrats continue to overwhelmingly return white, middle-aged, male MPs to Westminster. The book highlights a number of important findings: the Liberal Democrats' low number of women MPs is due to demand rather than supply; the party have not selected a sufficient number of women in winnable or target seats; the lack of women MPs undermines the party's pro-women policies; and women's interests have not been mainstreamed within the party. Together, these conclusions address substantive questions regarding the Liberal Democrats' numerical under-representation of women MPs and the extent to which they can act for and symbolically represent women. The book demonstrates the importance of using gender as a tool for analysing the culture, organisation and political recruitment of British political parties. Its originality and contribution lie in the empirical findings and its ability to address wider conceptual debates.

Literature, Science and Exploration in the Romantic Era Feb 15 2022 In 1768, Captain James Cook made the most important scientific voyage of the eighteenth century. He was not alone: scores of explorers like Cook, travelling in the name of science, brought new worlds and new peoples within the horizon of European knowledge for the first time. Their discoveries changed the course of science. Old scientific disciplines, such as astronomy and botany, were transformed; new ones, like craniology and comparative anatomy, were brought into being. Scientific disciplines, in turn, pushed literature of the period towards new subjects, forms and styles. Works as diverse as Mary Shelley's Frankenstein and Wordsworth's Excursion responded to the explorers' and scientists' latest discoveries. This wide-ranging and well-illustrated study shows how literary Romanticism arose partly in response to science's appropriation of explorers' encounters with foreign people and places and how it, in turn, changed the profile of science and exploration.

Minerals Yearbook Jul 08 2021

The Kingdom by the Sea Dec 25 2022 As mentioned in The Times Travel Book Club 2020 Award winning writer Paul Theroux embarks on a journey that, though closer to home than most of his expeditions, uncovers some surprising truths about Britain and the British people in the '80s in The Kingdom by the Sea: A Journey Around the Coast of Great Britain. Paul Theroux's round-Britain travelogue is funny, perceptive and 'best avoided by patriots with high blood pressure...' After eleven years living as an American in London, Paul Theroux set out to travel clockwise round the coast and find out what Britain and the British are really like. It was 1982, the summer of the Falklands War, the ideal time, he found, to surprise the British into talking about themselves. The result makes superbly vivid and engaging reading. 'A sharp and funny descriptive writer. One of his golden talents, perhaps because he is American and therefore classless in British eyes, is the ability to chat up and get on with all sorts and conditions of British. . . Theroux is a good companion' The Times 'Filled with history, insights, landscape, epiphanies, meditations, celebrations and laments' The New York Times 'Few of us have seen the entirety of the coast and I for one am grateful to Mr Theroux for making my journey unnecessary. He describes it all brilliantly and honestly' Anthony Burgess, Observer American travel writer Paul Theroux is known for the rich descriptions of people and places that is often streaked with his distinctive sense of irony; his other non-fiction titles, Riding the Iron Rooster, The Happy Isles of Oceania, Sunrise with Seamonsters, The Tao of Travel, Ghost Train to the Eastern Star, The Old Patagonian Express, The Great Railway Bazaar, Dark Star Safari, Fresh-air Fiend, Sir Vidia's Shadow, The Pillars of Hercules, and his novels and collections of short stories, including the James Tait Black Memorial Prize winner The Mosquito Coast are available from Penguin.

Tales from Early UK Oil Exploration 1960-1979 Mar 04 2021

Travel the World and Explore for Less than \$50 a Day, the Essential Guide: Nov 24 2022 Updated in 2020, including a chapter on traveling amidst the coronavirus (Covid-19), a worldwide pandemic. Travel the World and Explore is the essential guide to traveling the world and exploring new destinations for less than \$50 a day (GBP £36, Euro €43, AUD \$69, NZD \$72 or CAD \$65). For the solo backpacker or with friends this up-to-date practical guide will save you time and money with ideas, and need-to-know information so you can have the adventure of a lifetime from two weeks to one year. Full of global travellers' advice, anecdotes and testimonies to make your trip cheaper, safer and more exciting than you could ever have imagined! Save money with tricks and tips to ease you into your travels abroad and reduce the pressure of traveling in new destinations. Including: How to travel on less than \$50 a day and enjoy yourself daily. How to get cheap flights, your visa and navigating the airport. Youth hostels, camping, hotels, lodges, cafés and restaurants. Learning fast, language, communication, culture, food and drink. Packing your bag, the ultimate kit list and what to leave at home. Trekking, beach vacation, inner cities, the countryside and jungles. When and where to go, what to do, options, ideas and possibilities. Photography tips, social media, security and traveling with money. The environment, medical issues and dealing with an emergency. How to make savings, haggling and make your money go further. Transport abroad: buses, trains, taxis, rickshaws and motorbikes. Getting the best deals, practical research and preparation. Your road trip: car, motorbike, bicycle or renting abroad. How to stay safe, healthy and on the right side of the law. Prescription medicines that are illegal in other countries. Travel warnings, scams, inoculations, jabs and survival items. How to deal with unwanted attention, robbers and pickpockets. How to protect yourself from malaria, wildlife, leeches and insects. Food: allergies, hygiene, etiquette, vegetarian or vegan and potions. International driving permit, vehicle maintenance and driving abroad. Free WiFi, social media, communication, tablets and smartphones. Border crossings, transport hubs, fellow travellers and stimulants. Culture shock, religion, poverty, exploitation and helping others. Charters transport, renting a motorbike, scooter or boat. Theme parks, tourist and resort tax and when to tip. As a world traveller Mathew Backholer has visited more than forty countries and has traveled the length of Africa from Cairo to the Cape, across South-East Asia from India to Vietnam and from Nepal to Russia via China and Mongolia and has survived the Trans-Siberian Railway. He has visited North Africa six times, driven around Britain and Europe and has gone solo, with friends, as part of team and as a team leader. He is the co-founder of ByFaith Media (www.ByFaith.org) and presents the reality travel series ByFaith TV which airs globally on numerous networks. He is the author of many books including: Budget Travel, A Guide to Travelling on a Shoestring and How to Plan, Prepare and Successfully Complete Your Short-Term Mission.

Walking and Exploring the Battlefields of Britain Apr 24 2020 Each chapter in this guidebook includes a general description, a reference map, a short history section, important data, and the walks and hikes to be found there. The maps are intended to be

used as a general guide only, showing the approximate locations of the walks and trails. Detailed trail maps are unnecessary as the islands are small and most of the hikes are short. Antigua has many things going for it. The weather is absolutely perfect and the people are truly warm and friendly. Other islands may boast of having 365 beaches, but Antigua really does offer enough little bays, coves, and inlets that you could visit a different one every day of the year. So, if you dream of spending days strolling on palm-lined beaches, riding the waves on a sailboard, snorkeling in small, hidden coral coves, dancing the night away to pop music, and exploring the well-lit wilderness of a gambling casino, Antigua may just be the place. In 1632, 139 years after Columbus sailed by and named the island after Santa Maria la Antigua of Seville, the first British settlers arrived from St. Kitts. Unlike many early colonists on surrounding islands, Antiguans did not have to endure centuries of conquest and reconquest by various European powers. Only once, in 1666, was the island dominated by France. However, this French rule was ended within three months by the Treaty of Breda. The island may not have had a turbulent history of its own, but it housed a major British naval base. Admirals Rodney and Hood, and later Admiral Nelson, commanded heavily armed fleets based on Antigua. These patrolled the Caribbean, protecting English merchant ships and Great Britain's interests in the New World. The abolition of slavery brought decline to the sugar industry and the island became less important to England. Until the 1960s it remained a relatively quiet and unnoticed island. In 1967, Antigua attained associated state status in the British Commonwealth and, in 1981, was granted full independence. In the last 20 to 30 years, the sleepy island has awakened to the lure of the tourist trade and now draws tens of thousands more visitors than the neighboring islands of Montserrat, St. Kitts, or Nevis. It has also developed into the gateway of the Lesser Antilles. Many international airlines now use Antigua's airport as a transfer point to other islands. The best point to start an exploration is at the pier in St. John's. Directly across the pier is the Westerby Memorial, erected in 1888 to honor the work of Moravian Bishop, George Westerby. Walk along High Street to the Post Office, where you can buy the highly prized and colorful postage stamps of Antigua. Turn left on Thames Street and immediately come to the Tourist Office - the best place to learn more about the island. Follow Long Street to Market Street, where you'll turn left and stop to visit the excellent displays in the Museum of Antigua and Barbuda. This treasury of Antigua memorabilia is housed in the old Court House. It was constructed in 1750 and is the oldest building in St. John's. One more block will bring you to Newgate Street and the Police Station, built in 1788 and surrounded by a unique style of fence. Continue right on Newgate Street to the most famous spot of the city, St. John's Cathedral. This impressive structure has a turbulent history. The original building was erected in the late 1600s, but deteriorated to the point that it was replaced in the early 18th century. The stone church then stood for 100 years before it was destroyed by an earthquake in 1843. Having learned from past mistakes, the builders of the present-day cathedral treated interior walls with pitch pine to add stability in the event of further tremors. This is just the beginning. Fourteen major walks on the island are described in detail, along with a wide variety of walks on hotel and resort grounds, plus the general information you need about getting to the island and finding what you need.

Report ... Of The British Association For The Advancement Of Science Oct 23 2022

Trade, Travel, and Exploration in the Middle Ages Mar 24 2020 Trade, Travel, and Exploration: An Encyclopedia is a reference book that covers the peoples, places, technologies, and intellectual concepts that contributed to trade, travel and exploration during the Middle Ages, from the years A.D. 525 to 1492.

National Identities and Travel in Victorian Britain Mar 16 2022 This book explores components of national identity in Victorian Britain by analyzing travel literature. It draws on published and unpublished travel journals by middle-class men and women from England, Scotland, and Wales who toured the Continent and/or Britain. The main aim is to illustrate both the contexts that inspired the various collective identities of Britishness, Englishness, Scotsness, and Welshness, as well as the qualities Victorian men and women had in mind when they used such terms to identify and imagine themselves collectively.

Shrinking the Earth Aug 29 2020 The discovery of the Americas around 1500 AD was an extraordinary watershed in human experience. It gave rise to the modern period of human ecology, a phenomenon global in scope that set in motion profound changes in almost every society on earth. This new period, which saw the depletion of the lands of the New World, proved tragic for some, triumphant for others, and powerfully affecting for all. In this work, acclaimed environmental historian Donald Worster takes a global view in his examination of the ways in which complex issues of worldwide abundance and scarcity have shaped American society and behavior over three centuries. Looking at the limits nature imposes on human ambitions, he questions whether America today is in the midst of a shift from a culture of abundance to a culture of limits--and whether American consumption has become reliant on the global South. Worster engages with key political, economic, and environmental thinkers while presenting his own interpretation of the role of capitalism and government in issues of wealth, abundance, and scarcity. Acknowledging the earth's agency throughout human history, *Shrinking the Earth* offers a compelling explanation of how we have arrived where we are and a hopeful way forward on a planet that is no longer as large as it once was.

Russian Exploration, from Siberia to Space Jun 26 2020 In the history of geographical discovery and exploration, a well-known cast of European characters and events takes center stage. While the importance of achievements by Columbus, Cortés, Magellan, Cook, Lewis and Clark, and Neil Armstrong remains unassailable, the participation of Russia in the European era of exploration, conquest, expansion, and colonization deserves equal attention. This study provides a narrative survey and critical analysis of a rich but overlooked tradition of geographical exploration by Russians and others in Russian service since 1580. Following Russian pioneers across Siberia, Alaska, Brazil, Hawaii and the Pacific, Central Asia, Australasia, the Arctic and Antarctic, and into space, this work establishes Russia in the history of world exploration and connects the Russian experience of exploration to Russian national identity past and present.

Exploring British Culture with Audio CD Jan 26 2023 A multi-level, photocopiable resource book about life in the UK. Exploring British Culture is a resource book of ready-to-teach lessons about life in the UK. It covers 18 key topic areas including History and Politics, Health and Housing, Work and Education, Leisure, the Media and Culture. Each topic area has 3 lessons - for Elementary, Intermediate and Advanced learners. The lessons can be adapted according to class needs and each lesson has suggestions for lesson extension activities and further study. The accompanying Audio CD features recordings of a variety of authentic accents from around the UK.

British Narratives of Exploration Aug 21 2022 Features a collection of essays that focus on British travel narratives from the seventeenth through to the nineteenth centuries. This work investigates how the early explorers' sense of self was destabilised by encounters with the Other.

Privatization Jun 07 2021 The process of selling assets and enterprises to the private sector raises questions about natural monopolies, the efficiency and equity of state-owned versus privately owned enterprises, and industrial policy. This comprehensive analysis of the British privatization program explores these questions both theoretically and empirically.

Europe and the World, 1650-1830 Feb 21 2020 Focusing on Europe's impact on the world, Jeremy Black analyses European attitudes, exploration, trade and acquisition of knowledge. *Europe and the World, 1650-1830* is an important thematic study of the first age of globalisation.
