Bulletproof Diva Sep 21 2022 In Bulletproof Diva, Lisa Jones brings the wit and candor of her infamous Village Voice column, "Skin Trade," to a much larger audience. Chock full of the "fierce black girl humor" that has made her column so popular, this provocative collection of

essays and observations on race, sex, identity, and the politics of style speaks to a young generation of blacks who were raised in an integrated society and are now waiting for America to deliver on its promises of equality. The thirty-seven short pieces and six long essays in Bulletproof Diva cover a wide range of topics, many of them extremely controversial. Jones moves smoothly from issues of ethnicity in a changing America, challenging viewpoints on African-American and mixed race identity, to "butt theory" and the roller-coaster politics of black hair. Written in a style that is as appealing as it is unapologetic, Bulletproof Diva marks the debut of a genuinely gifted young writer with a distinctive voice and a fresh perspective on the black cultural scene.

The War on Guns Aug 28 2020 When it comes to the gun control debate, there are two kinds of data: data that's accurate, and data that left-wing billionaires, politicians, and media want you to believe is accurate. In The War on Guns, economist and gun rights advocate John Lott turns a skeptical eye to well-funded anti-gun studies and stories that perpetuate false statistics to frighten Americans into giving up their guns.

The Complete Idiot's Guide to Self-defense Jan 25 2023 You're no idiot, of course! You know it's not wise to venture into a dark alley alone late at night, and you always tell your kids not to talk to strangers. But when it comes to preventing--and handling--an attack against yourself, your home, or your family, you feel closer to the Cowardly Lion than Braveheart. Don't buy a bulletproof vest just yet! The Complete Idiot's Guide to Self-Defense is

your best bet for maximum protection, short of hiring an NFL lineman as your bodyguard. In this Complete Idiot's Guide, you get:

On Combat Sep 28 2020 Looks at the effect of deadly battle on the body and mind and offers new research findings to help prevent lasting adverse effects.

Bulletproof Jul 27 2020 Jory Harcourt doesn't have to go looking for trouble. Wherever he goes, it seems to find him—particularly when his partner, Sam Kage, is working undercover on a federal task force. After the recession forces him to close his business, Jory goes to work as a matchmaker and event planner. From there, it's only a matter of time before his big mouth and up-front attitude make him the rope in a tug-of-war between a trust fund baby and a drug-smuggling criminal. Then, as if that situation weren't delicate enough, Jory's undercover lover shows up working for the smuggler. Between the men who want him and the men who just want him dead, Chicago is getting a little crowded for Jory, so on the advice of his brother, his boyfriend, and the FBI task force, he heads for Hawaii... where a serious accident threatens his quality of life. Can Sam and Jory keep the faith and prove that their relationship really is bulletproof?

The Kill Chain Jan 01 2021 From a former senior advisor to Senator John McCain comes an urgent wake-up call about how new technologies are threatening America's military might. For generations of Americans, our country has been the world's dominant military power. How the US military fights, and the systems and weapons that it fights with, have been uncontested. That old reality, however, is

rapidly deteriorating. America's traditional sources of power are eroding amid the emergence of new technologies and the growing military threat posed by rivals such as China. America is at grave risk of losing a future war. As Christian Brose reveals in this urgent wake-up call, the future will be defined by artificial intelligence, autonomous systems, and other emerging technologies that are revolutionizing global industries and are now poised to overturn the model of American defense. This fascinating, if disturbing, book confronts the existential risks on the horizon, charting a way for America's military to adapt and succeed with new thinking as well as new technology. America must build a battle network of systems that enables people to rapidly understand threats, make decisions, and take military actions, the process known as "the kill chain." Examining threats from China, Russia, and elsewhere, The Kill Chain offers hope and, ultimately, insights on how America can apply advanced technologies to prevent war, deter aggression, and maintain peace.

Practical Doomsday Jun 06 2021 Disasters happen. Be prepared. Here's how. As a leading security engineer, Michal Zalewski has spent his career methodically anticipating and planning for cyberattacks. In Practical Doomsday, Zalewski applies the same thoughtful, rational approach to preparing for disasters of all kinds. By sharing his research, advice, and a healthy dose of common sense, he'll help you rest easy knowing you have a plan for the worst—even if the worst never comes. The book outlines a level-headed model for evaluating risks,

one that weighs the probability of scenarios against the cost of preparing for them. You'll learn to apply that model to the whole spectrum of potential crises, from personal hardships like job loss or a kitchen fire, to large-scale natural disasters and industrial accidents, to recurring pop-culture fears like all-out nuclear war. You'll then explore how basic lifestyle adjustments, such as maintaining a robust rainy-day fund, protecting yourself online, and fostering good relationships with your neighbors, can boost your readiness for a wide range of situations. You'll also take a no-nonsense look at the supplies and equipment essential to surviving sudden catastrophes, like prolonged power outages or devastating storms, and examine the merits and legal implications of different self-defense strategies. You'll learn:

- How to identify and meaningfully assess risks in your life, then develop strategies for managing them***
- Ways to build up and diversify a robust financial safety net—a key component of nearly all effective preparedness strategies***
- How to adapt your prep plans to a variety of situations, from shelter-in-place scenarios to evacuations by car or on foot***
- Sensible approaches to stockpiling food, water, and other essentials, along with recommendations on what supplies are actually worth having***

Disasters happen, but they don't have to dominate your life. Practical Doomsday will help you plan ahead, so you can stop worrying about what tomorrow may bring and start enjoying your life today.

The Secrets of the Bulletproof Spirit May 17 2022 When life deals you a particularly difficult blow or a staggering

loss, how do you handle it? If you're like most, you might think Why me?, struggle to find your way, or lash out at those around you. But there are a select few who seem emotionally hardier, who are able to face life's physical, emotional, and financial hits undeterred and perhaps even forge ahead, empowered in the face of adversity. These people aren't more deserving or luckier than the rest of us; they simply think differently—they are connected with their steady inner self and find strength where others might see meaninglessness; they make life-affirming choices instead of defeatist ones. In short, they are spiritually bulletproof. They face as many of life's slings and arrows as the rest of us, but they don't succumb to hardship or misfortune. And you can be one of them. In *The Secrets of the Bulletproof Spirit*, renowned peace activist Azim Khamisa and inspirational speaker Jillian Quinn reveal the thirty essential keys to emotional and spiritual resiliency. Based upon their own experiences with heart-wrenching loss, the strategies they present may seem simple, but their advice can open up a whole new way of thinking. Khamisa and Quinn will help you discover

- that your thoughts help to create your reality, and that you can use them to take control of your life**
- the potentially damaging mental routines you're running on autopilot**
- the vital connections between your upbringing and your "resiliency quotient"**
- spiritually affirming thoughts that may help you make more spiritually empowering choices**

"What lies within you really is more powerful than any hit you may take physically, emotionally, or materially," the authors write. With their

help, readers will find themselves more confident and secure in a volatile and uncertain world. When you learn to identify most strongly with that invincible core—your bulletproof spirit—you tap into the truest source of security available to you. And while there's no foolproof way to stay out of the proverbial line of fire, the information, inspiration, and tools in this book will provide you with an emotional bulletproof vest, a way to take hits and come out on top. From the Hardcover edition.

SPIN Jun 25 2020 From the concert stage to the dressing room, from the recording studio to the digital realm, SPIN surveys the modern musical landscape and the culture around it with authoritative reporting, provocative interviews, and a discerning critical ear. With dynamic photography, bold graphic design, and informed irreverence, the pages of SPIN pulsate with the energy of today's most innovative sounds. Whether covering what's new or what's next, SPIN is your monthly VIP pass to all that rocks.

The Gentle Art of Verbal Self Defense Feb 20 2020 Most of us are under verbal attack everyday and often don't realize it. In "The Gentle Art of Verbal Self-Defense" you'll learn the skills you need to respond to all types of verbal attack

Bulletproof Vest Sep 09 2021 Traces the author's effort to confront her father's turbulent and often violent legacy, describing how after a fourteen-year estrangement he shared stories about his own father and his extradition from the United States for murder.

Living in the Crosshairs Oct 18 2019 A chilling exposé of the threats, harassment, and worse that American abortion

providers face on a daily basis--and groundbreaking remedies to stop it.

Priorities for Research to Reduce the Threat of Firearm-Related Violence May 25 2020 In 2010, more than 105,000 people were injured or killed in the United States as the result of a firearm-related incident. Recent, highly publicized, tragic mass shootings in Newtown, CT; Aurora, CO; Oak Creek, WI; and Tucson, AZ, have sharpened the American public's interest in protecting our children and communities from the harmful effects of firearm violence. While many Americans legally use firearms for a variety of activities, fatal and nonfatal firearm violence poses a serious threat to public safety and welfare. In January 2013, President Barack Obama issued 23 executive orders directing federal agencies to improve knowledge of the causes of firearm violence, what might help prevent it, and how to minimize its burden on public health. One of these orders directed the Centers for Disease Control and Prevention (CDC) to, along with other federal agencies, immediately begin identifying the most pressing problems in firearm violence research. The CDC and the CDC Foundation asked the IOM, in collaboration with the National Research Council, to convene a committee tasked with developing a potential research agenda that focuses on the causes of, possible interventions to, and strategies to minimize the burden of firearm-related violence. Priorities for Research to Reduce the Threat of Firearm-Related Violence focuses on the characteristics of firearm violence, risk and protective factors, interventions and strategies, the impact of gun safety technology, and

the influence of video games and other media.

The Safety Trap Dec 20 2019 Threat management expert Spencer Coursen offers proactive strategies to protect yourself and your loved ones in the event of hostile encounters and emergency situations in The Safety Trap: A Security Expert's Secrets for Staying Safe in a Dangerous World. Despite what the news and social media would have you believe, we have never lived in a safer time than we are now. Unfortunately, we live under a false sense of security enforced by authorities that only alleviates fears without reducing risk. We have placed our personal safety, and our responsibilities of guarding it, into the hands of people trained only to respond to crises, not actively prevent them. Our blind faith in institutions to protect us has only dulled our natural survival instincts. The truth is that when we feel safest is actually when we are in the most danger. This is the paradox of The Safety Trap. When you don't expect danger, you simply fail to see the signs that something bad is about to happen. But the signs are always there, and staying safe is about training yourself to see them. In easy-to-implement methods of maintaining vigilance, assessing risk, and taking preventative measures, you'll discover how to be alert without anxiety and know how to best protect and defend yourself on the job, in school, in public places, at home, and online. With Coursen's simple formula of Awareness + Preparation = Safety as your guide—as well as real world examples of managing threats—you will learn how to develop the skills and confidence to reclaim your own security and avoid The Safety Trap.

The Bulletproof Diet Feb 14 2022 In his mid-twenties, Dave Asprey was a successful Silicon Valley multimillionaire. He also weighed 300 pounds, despite the fact that he was doing what doctors recommended: eating 1,800 calories a day and working out 90 minutes a day, six times a week. When his excess fat started causing brain fog and food cravings sapped his energy and willpower, Asprey turned to the same hacking techniques that made his fortune to "hack" his own biology, investing more than \$300,000 and 15 years to uncover what was hindering his energy, performance, appearance, and happiness. From private brain EEG facilities to remote monasteries in Tibet, through radioactive brain scans, blood chemistry work, nervous system testing, and more, he explored traditional and alternative technologies to reach his physical and mental prime. The result? The Bulletproof Diet, an anti-inflammatory program for hunger-free, rapid weight loss and peak performance. The Bulletproof Diet will challenge—and change—the way you think about weight loss and wellness. You will skip breakfast, stop counting calories, eat high levels of healthy saturated fat, work out and sleep less, and add smart supplements. In doing so, you'll gain energy, build lean muscle, and watch the pounds melt off. By ditching traditional "diet" thinking, Asprey went from being overweight and sick in his twenties to maintaining a 100-pound weight loss, increasing his IQ, and feeling better than ever in his forties. The Bulletproof Diet is your blueprint to a better life.

Testimony Mar 23 2020 From the bestselling author of

Presumed Innocent comes Testimony, Scott Turow's most twist-filled thriller to date. Bill ten Boom has walked out on everything he thought was important to him: his career, his wife, even his country. Invited to become a prosecutor at The Hague's International Criminal Court, it was a chance to start afresh. But when his first case is to examine the disappearance of four hundred Roma refugees – an apparent war crime left unsolved for ten years – it's clear this new life won't be an easy one Whispered rumours have the perpetrators ranging from Serb paramilitaries to the U.S. Army, but there's no hard evidence to hold either accountable, and only a single witness to say it happened at all. To get to the truth, Boom must question the integrity of every person linked to the case – from Layton Merriwell, a disgraced US Major General, to flirtatious barrister, Esma Czarni – as it soon becomes apparent that every party has a vested interest and no qualms in steering the investigation their way

Bulletproof Home Security System Feb 26 2023 Simple steps to secure your home that anyone can follow.

Becoming Bulletproof Nov 23 2022 Former Secret Service agent and star of Bravo's Spy Games Evy Poumpouras shares lessons learned from protecting presidents, as well insights and skills from the oldest and most elite security force in the world to help you prepare for stressful situations, instantly read people, influence how you are perceived, and live a more fearless life. Becoming Bulletproof means transforming yourself into a stronger, more confident, and more powerful person. Evy Poumpouras—former Secret Service agent to three

presidents and one of only five women to receive the Medal of Valor—demonstrates how we can overcome our everyday fears, have difficult conversations, know who to trust and who might not have our best interests at heart, influence situations, and prepare for the unexpected. When you have become bulletproof, you are your best, most courageous, and most powerful version of you. Poupouras shows us that ultimately true strength is found in the mind, not the body. Courage involves facing our fears, but it is also about resilience, grit, and having a built-in BS detector and knowing how to use it. In Becoming Bulletproof, Poupouras demonstrates how to heighten our natural instincts to employ all these qualities and move from fear to fearlessness.

Human Rights and Personal Self-defense in International Law Nov 30 2020 Based on author's thesis (doctoral - European University Viadrina in Frankfurt (Oder), Germany, 2016) issued under title: The right to personal self-defence as a general principle of law and its general application in international human rights law --Verso of title page.

From Wallflowers to Bulletproof Families Oct 10 2021 Uses of disability in literature are often problematic and harmful to disabled people. This is also true, of course, in children's and young adult literature, but interestingly, when disability is paired and confused with adolescence in narratives, compelling, complex arcs often arise. In From Wallflowers to Bulletproof Families: The Power of Disability in Young Adult Narratives, author Abbye E. Meyer examines different ways authors use and portray

disability in literature. She demonstrates how narratives about and for young adults differ from the norm. With a distinctive young adult voice based in disability, these narratives allow for readings that conflate and complicate both adolescence and disability. Throughout, Meyer examines common representations of disability and more importantly, the ways that young adult narratives expose these tropes and explicitly challenge harmful messages they might otherwise reinforce. She illustrates how two-dimensional characters allow literary metaphors to work, while forcing texts to ignore reality and reinforce the assumption that disability is a problem to be fixed. She sifts the freak characters, often marked as disabled, and she reclaims the derided genre of problem novels arguing they empower disabled characters and introduce the goals of disability-rights movements. The analysis offered expands to include narratives in other media: nonfiction essays and memoirs, songs, television series, films, and digital narratives. These contemporary works, affected by digital media, combine elements of literary criticism, narrative expression, disability theory, and political activism to create and represent the solidarity of family-like communities.

Creepology Oct 30 2020 For many women, creeps are a serious, ubiquitous, pervasive problem. They seem to be everywhere. Not only they pester us in public, but some are capable of worming their way into our social life, poisoning our experiences. For many men, creeps are like unicorns: they hear about them a lot but they never actually see one. Even when they do, they don't

understand what the fuss is all about. This books aims to bridge that gap by explaining the nature of creeps, how and why they manage to infiltrate our social circles, and how we can best deal with them in a safe and timely manner. "It's easy to teach what to do-legally and physically-when a stranger raises his hand against you. Much harder to teach what you can do-legally, physically and socially-about the guy who just happens to rub up against you whenever no one is watching. Anna has taken on the complex subject in this little book. For the people dealing with creeps, it's invaluable advice. For people teaching self-defense, it's a wake-up call. Read this one." - Rory Miller, author of "Meditations on Violence," "Conflict Communication," "Facing Violence," and many other works.

Be Bulletproof Aug 20 2022 This is the essential guide for anyone looking to get ahead in the warzone that is often the workplace. However good you are, there are always times you come under fire at work. But how do you turn a crisis into an opportunity, and make yourself bulletproof? In Be Bulletproof, business trainers James and Simon Brooke reveal the top practical solutions for strengthening your resilience – so you can bounce back from every setback, rejection or criticism. You'll learn to be confident, positive and self-assured in the face of any office adversity. Arm yourself against workplace hazards like: - Harsh criticism and hostile colleagues - Company politics and bad bosses - Rejection and failure - Redundancy or losing your job - And – dare we say it? – your own mistakes

Defending Your Castle Jan 21 2020 A man's home is his castle, or so the saying goes, but could it withstand an attack by Attila and the Huns, Ragnar and the Vikings, Alexander and the Greeks, Genghis Khan and the Mongols, or Tamerlane and the Tartars? Backyard Ballistics author William Gurstelle poses this fascinating question to modern-day garage warriors and shows them how to build an arsenal of ancient artillery and fortifications aimed at withstanding these invading hordes. Each chapter introduces a new bad actor in the history of warfare, details his conquests, and features weapons and fortifications to defend against him and his minions. Clear step-by-step instructions, diagrams, and photographs show how to build a dozen projects, including "Da Vinci's Catapult," "Carpini's Crossbow," a "Crusader-Proof Moat," "Alexander's Tortoise," and the "Cheval-de-frise." With a strong emphasis on safety, the book also gives tips on troubleshooting, explains the physics behind many of the projects, and shows where to buy the materials. By the time they've reached the last page, at-home defenders everywhere will have succeeded in creating a fully fortified home.

Guerrilla Marketing for a Bulletproof Career Mar 15 2022 Presents strategies for achieving career goals and receiving new opportunities in the twenty-first century, emphasizing the importance of networking, building strong relationships, and doing good work.

Inside Cyber Warfare Jul 07 2021 What people are saying about Inside Cyber Warfare "The necessary handbook for the 21st century." --Lewis Shepherd, Chief Tech Officer

and Senior Fellow, Microsoft Institute for Advanced Technology in Governments "A must-read for policy makers and leaders who need to understand the big-picture landscape of cyber war." --Jim Stogdill, CTO, Mission Services Accenture You may have heard about "cyber warfare" in the news, but do you really know what it is? This book provides fascinating and disturbing details on how nations, groups, and individuals throughout the world are using the Internet as an attack platform to gain military, political, and economic advantages over their adversaries. You'll learn how sophisticated hackers working on behalf of states or organized crime patiently play a high-stakes game that could target anyone, regardless of affiliation or nationality. Inside Cyber Warfare goes beyond the headlines of attention-grabbing DDoS attacks and takes a deep look inside multiple cyber-conflicts that occurred from 2002 through summer 2009. Learn how cyber attacks are waged in open conflicts, including recent hostilities between Russia and Georgia, and Israel and Palestine Discover why Twitter, Facebook, LiveJournal, Vkontakte, and other sites on the social web are mined by the intelligence services of many nations Read about China's commitment to penetrate the networks of its technologically superior adversaries as a matter of national survival Find out why many attacks originate from servers in the United States, and who's responsible Learn how hackers are "weaponizing" malware to attack vulnerabilities at the application level

**Attacking and Defending Drunk Driving Tests Mar 03 2021
The latest edition is packed with essential information**

including: Eleven new sample motions/petitions with arguments providing you with the most complete collection of DUI motions you are likely to find anywhere. Six common types of prosecutorial misconduct and how to deal with them. Analysis of the U.S. Supreme Court's decision in Birchfield v. North Dakota regarding implied consent laws and warrantless breath and blood tests. Two sample cross examinations: a destructive HGN cross examination and a cross-examination challenging blood draw procedures. Filing a writ to challenge a DMV hearing license suspension with a sample writ of mandate and a sample ex parte application for a stay of suspension. Co-Elution—the problem with single column chromatography. Operating the Drager Alcotest 7510®. Should the defense reanalyze the blood sample? Why you should try the case with a co-counsel. NHTSA's 465 page DWI Detection and SFST Training Manual on Digital Access. Eight key insights from the Manual.

An Act of Self-Defense May 05 2021 It is ten years into the future and the nation's government is nearing financial and moral collapse. A small group (the TLR) believes deadly force is necessary to save individual liberty from the two-party political aristocracy that is Congress. They believe the imminent economic collapse will be an excuse for the dictatorial powers soon to be claimed by the federal government. They accuse Congress of having "increased your powers far beyond their constitutional limits. You have systematically destroyed our natural right to own ourselves and make our own choices. You have become an aristocracy that steals our production and

controls us as if we are your serfs." They announce to the nation, "Ours is the only form of revolution now possible, but it has this advantage. If lives must be taken, only ours or those that have stolen our lives will be required to forfeit theirs." They give Congress three days ... to approve their proposed Term Limits Amendment to the Constitution, one that prevents professional politicians from serving in Congress, or, unless they first resign, the long term incumbents "will be term-limited in the only way they leave us." The Department of Justice targets term limits supporters and libertarians in its hunt for the terrorist group. But when the first senator is "term-limited" in spite of all that federal authorities can do to stop it, it is clear the terrorists will not be easily found. They are inside the federal law enforcement agencies that are hunting them. This novel examines a critical issue for our liberty"--Amazon blurb

The Man Who Folded Himself Apr 23 2020 This classic work of science fiction is widely considered to be the ultimate time-travel novel. When Daniel Eakins inherits a time machine, he soon realizes that he has enormous power to shape the course of history. He can foil terrorists, prevent assassinations, or just make some fast money at the racetrack. And if he doesn't like the results of the change, he can simply go back in time and talk himself out of making it! But Dan soon finds that there are limits to his powers and forces beyond his control.

Shooter's Bible Guide to Home Defense Jul 19 2022 Provides advice on how to evaluate the vulnerable points in a home, fortify the property discreetly, select security

systems, choose weapons and use them under stress, and interact safely with aggressors.

Bulletproof Vest Jun 18 2022 A New York Times Editors' Choice book The haunting story of a daughter's struggle to confront her father's turbulent-and often violent-legacy After a fourteen-year estrangement, Maria Venegas returns to Mexico from the United States to visit her father, who is living in the old hacienda where both he and she were born. While spending the following summers and holidays together, herding cattle and fixing barbed-wire fences, he begins sharing stories with her, tales of a dramatic life filled with both intense love and brutal violence-from the final conversations he had with his own father, to his extradition from the United States for murder, to his mother's pride after he shot a man for the first time at the age of twelve. Written in spare, gripping prose, Bulletproof Vest is Venegas's reckoning with her father's difficult legacy. Moving between Mexico and New York, between past and present, Venegas traces her own life and her father's as, over time, a new closeness and understanding develops between them. Bulletproof Vest opens with a harrowing ambush on Venegas's father while he's driving near his home in Mexico. He survives the assault-but years later the federales will find him dead near the very same curve, and his daughter will be left with not only the stories she inherited from him but also a better understanding of the violent undercurrent that shaped her father's life as well as her own.

The Internationalists Aug 08 2021 "An original book...about individuals who used ideas to change the

world” (The New Yorker)—the fascinating exploration into the creation and history of the Paris Peace Pact, an often overlooked but transformative treaty that laid the foundation for the international system we live under today. In 1928, the leaders of the world assembled in Paris to outlaw war. Within the year, the treaty signed that day, known as the Peace Pact, had been ratified by nearly every state in the world. War, for the first time in history, had become illegal. But within a decade of its signing, each state that had gathered in Paris to renounce war was at war. And in the century that followed, the Peace Pact was dismissed as an act of folly and an unmistakable failure. This book argues that the Peace Pact ushered in a sustained march toward peace that lasts to this day. A “thought-provoking and comprehensively researched book” (The Wall Street Journal), The Internationalists tells the story of the Peace Pact through a fascinating and diverse array of lawyers, politicians, and intellectuals. It reveals the centuries-long struggle of ideas over the role of war in a just world order. It details the brutal world of conflict the Peace Pact helped extinguish, and the subsequent era where tariffs and sanctions take the place of tanks and gunships. The Internationalists is “indispensable” (The Washington Post). Accessible and gripping, this book will change the way we view the history of the twentieth century—and how we must work together to protect the global order the internationalists fought to make possible. “A fascinating and challenging book, which raises gravely important issues for the present...Given the state of the world, The Internationalists

has come along at the right moment” (The Financial Times).

A Bulletproof Life Jan 13 2022 Bulletproof wades through the fact and fiction of real life police work with no punches held back. It is raw, honest, humorous and gritty. It not only breaks down what we think is protecting us in life, it reveals the truth of what being bulletproof really means, how it makes life better and leaves you wondering, "What if I was bulletproof?" "A heck of a ride..." -Lt. Col. Dave Grossman "Like watching an action film or a TV cop show...a must read." -Jim Burgen, Pastor Flatirons Community Church "...gives a new meaning to the word 'bulletproof.' Its lessons could change your life." -Tim Hall, former U.S. Marine (Vietnam) "...a piercing look into the soul and for those who are worn down by the bullets of ambiguity, heartbreaking tragedy and cynicism." -Mike O'Neill, Police Commander (ret.) "...a new found appreciation for body armor." -Gino Geraci, Chaplain Denver F.B.I. Todd Gentry is a veteran street cop with over fifteen years of law enforcement experience. He works as a member of a specialized unit combating drugs, gangs and prostitution in some of the city's most dangerous areas. Among other achievements, he has been awarded the department's Distinguished Service Cross for apprehending a serial rapist that put an end to a series of violent attacks against women. For more, visit www.abulletprooflife.com.

Bulletproof Faith Apr 16 2022 This thoughtful, practical guide shows readers a way through the minefield of condemnation and persecution faced by gay, lesbian,

bisexual, and transgender Christians and helps foster a faith that is bulletproof—impervious to attacks, yet loving and savvy in its approach. Bulletproof Faith is filled with useful insights and proven spiritual practices that deflect attacks and enhance and strengthen faith by turning attacks into opportunities for spiritual growth. Praise for Bulletproof Faith "Gay and lesbian Christians are constantly demoralized and told they are not children of God. In Bulletproof Faith, Chellew-Hodge reassures gays and lesbians that God loves them just as they were created and teaches them how to stand strong, with compassion and gentleness, against those who condemn them." —Archbishop Emeritus Desmond Tutu "It is an amazing truth that gay and lesbian Christians need to develop a bulletproof faith in order to survive the attack of other Christians. That, however, is the experience of many homosexual persons. Candace Chellew-Hodge has in this book committed herself to the task of making that survival a reality. I salute her and her work." —John Shelby Spong, author, Jesus for the Non-Religious "We know the Religious Right is wrong about same-sex relationships and it's time to move on. But how to withstand their relentless attacks and find lasting peace of soul? Candace Chellew-Hodge offers a practical guide. It met me right where I am. It will touch and help heal many others, too." —Daniel A. Helminiak, professor of psychology, University of West Georgia, and author, What the Bible Really Says About Homosexuality

The Ethics of Self-Defense Apr 04 2021 The fifteen new essays collected in this volume address questions

concerning the ethics of self-defense, most centrally when and to what extent the use of defensive force, especially lethal force, can be justified. Scholarly interest in this topic reflects public concern stemming from controversial cases of the use of force by police, and military force exercised in the name of defending against transnational terrorism. The contributors pay special attention to determining when a threat is liable to defensive harm, though doubts about this emphasis are also raised. The legitimacy of so-called "stand your ground" policies and laws is also addressed. This volume will be of great interest to readers in moral, political, and legal philosophy.

**Corporate Defense and the Value Preservation Imperative
Dec 24 2022 This is the first book to finally address the umbrella term corporate defense, and to explain how an integrated corporate defense program can help an organization address both value creation and preservation. The book explores the value preservation imperative, which represents an organization's obligation to implement a comprehensive corporate defense program in order to deliver long-term sustainable value to its stakeholders. For the first time the reader is provided with a complete picture of how corporate defense operates all the way from the boardroom to the front-lines, and vice versa. It provides comprehensive guidance on how to implement a robust corporate defense program by addressing this challenge from strategic, tactical, and operational perspectives. This arrangement provides readers with a holistic view of corporate defense and incorporates the management of the eight critical**

corporate defense components. It includes how an organization needs to integrate its governance, risk, compliance, intelligence, security, resilience, controls and assurance activities within its corporate defense program. The book addresses the corporate defense requirement from various perspectives and helps readers to understand the critical interconnections and interdependencies which exist at strategic, tactical, and operational levels. It facilitates the reader in comprehending the importance of appropriately prioritizing corporate defense at a strategic level, while also educating the reader in the importance of managing corporate defense at a tactical level, and executing corporate defense activities at an operational level. Finally the book looks at the business case for implementing a robust corporate defense program and the value proposition of introducing a truly world class approach to addressing the value preservation imperative. Cut and paste this link

(https://m.youtube.com/watch?v=u5R_eOPNHbl) to learn more about a corporate defense program and how the book will help you implement one in your organization.

I Wasn't Born Bulletproof Nov 11 2021 Since catapulting to reality TV stardom on the hit MTV series Teen Mom and 16 and Pregnant, Maci Bookout has become a mother of three, a successful businesswoman, and a sought-after motivational speaker—all by the tender age of 25. As she traveled across the country, speaking to young people and sharing her inspiring story, the one comment Maci kept hearing over and over was, “You’re so strong. You make it

all look so easy.” But Maci was not born “bulletproof.” She taught herself to be strong despite her struggles and to turn adversity into advantages. In I Wasn’t Born Bulletproof, bestselling author Maci shares with readers the truth behind her Teflon exterior and offers fun, inspirational advice for everyone.

Securing Your Home Nov 18 2019 Have you ever wanted to increase the protection of your home from criminal activity, but couldn't afford the cost of an expensive alarm system? Here is a guide to securing your home or property without having to pay a fortune. In this short book, you will learn how to better use the resources that you already have and minimize the cost of security equipment. You will be guided through a risk assessment survey that will help you to determine what you really need. Don't let high prices keep you from Securing Your Home.

Head Strong Dec 12 2021 From the creator of Bulletproof Coffee and author of the bestselling The Bulletproof Diet comes a revolutionary plan to upgrade your brainpower—in two weeks or less. For the last decade, Silicon Valley entrepreneur Dave Asprey has worked with world-renowned doctors and scientists to uncover the latest, most innovative methods for making humans perform better—a process known as “biohacking.” In his first book, The Bulletproof Diet, he shared his biohacking tips for taking control of your own biology. Now, in Head Strong, Asprey shows readers how to biohack their way to a sharper, smarter, faster, more resilient brain. Imagine feeling like your mind is operating at its clearest and

sharpest, and being able—possibly for the first time in your life—to do more in less time? What if it suddenly became easier to do the very hardest things you do? Or if you could feel 100% confident about your intellect, and never again fear being the person in the room who just isn't smart enough, or can't remember something important? How would you treat people if the mood swings, short temper, and food cravings that disrupt your day could simply disappear? In Head Strong, Asprey shows us that all of this is possible—and more. Using his simple lifestyle modifications (or "hacks") to take advantage of how the structure of your brain works, readers will learn how to take their mental performance to the next level. Combining the latest findings in neuroscience and neurobiology with a hacker-inspired "get it done now" perspective, Asprey offers a program structured around key areas of brain performance that will help you: Power the brain with exactly what it needs to perform at its best all day long Eliminate the sources of "kryptonite," both nutritional and environmental, that make the brain slower. Supercharge the cellular powerhouses of our brains, the mitochondria, to eliminate cravings and turn up mental focus. Reverse inflammation to perform better right now, then stay sharp and energized well into your golden years. Promote neuron growth to enhance processing speed and reinforce new learning—hotwiring your brain for success. Asprey's easy to follow, two-week program offers a detailed plan to supercharge brain performance, including: which foods to eat and which ones to avoid, how to incorporate the right kinds of physical activity into your day, a detox protocol

for your home and body; meditation and breathing for performance, recommended brain-boosting supplements; and how to adjust the lighting in your home and work space to give your brain the quality light it thrives on. A better brain—and a happier, easier, more productive life—is within reach. You just need to get Head Strong.

The Writer's Guide to Weapons Feb 02 2021 When it comes to writing weapons, most authors shoot from the hip--and miss. The Writer's Guide to Weapons will help you hit your target every time. Firearms and knives have starring roles in a wide range of genres--crime, thriller, war, mystery, Western, and more. Unfortunately, many depictions of weapons in novels and film are pure fiction. Knowing the difference between a shotshell and a slug, a pistol and a revolver, or a switchblade and a butterfly knife is essential for imbuing your story with authenticity--and gaining popularity with discerning readers. Inside you'll find:

- An in-depth look at the basics of firearms and knives: how they work, why they work, what they look like, and how to depict them accurately in your stories.***
- The biggest weapons myths in fiction, TV, and film.***
- A surefire guide for choosing the correct weapon for your characters, no matter their skill level, strength, or background.***
- A review of major gun and knife laws, weapons safety tips, and common police tactics.***
- "The Hit List," showcasing the most popular weapons for spies, detectives, gunslingers, gangsters, military characters, and more.***
- Examples highlighting inaccurate vs. accurate weapons depictions.***
- An insightful foreword by David Morrell, the award-winning creator of Rambo. Equal parts***

accessible, humorous, and practical, The Writer's Guide to Weapons is the one resource you need to incorporate firearms and knives into your fiction like a seasoned professional.

Hardcore Self-Defense Oct 22 2022 HARDCORE SELF-DEFENSE is totally unlike any other martial-arts book you've ever read. It is the result of a lifetime of experience by one who walks the Warrior's Path. Jam-packed with useful information, no space is wasted with "filler material" like training methods, foreign terminology, or photographs of the author pretending to spar. No, this book gets right to the point and tells you the best ways to defend oneself, as well as commonly taught nonsense that will not work against a real opponent. This book is heavy on combat psychology and weaponscraft, and is intended for those who are truly serious about protecting themselves and their loved ones. Be warned, this book is NOT FOR THE MEEK!
