This extraordinary, poetic portrait of two peregrine falcons is one of the most beloved works of nature writing ever published. From fall to spring, J.A. Baker set out to track the daily comings and goings of a pair of peregrine

falcons across the flat fen lands of eastern England. He followed the birds obsessively, observing them in the air and on the ground, in pursuit of their prey, making a kill, eating, and at rest, activities he describes with an extraordinary fusion of precision and poetry. And as he continued his mysterious private quest, his sense of human self slowly dissolved, to be replaced with the alien and implacable consciousness of a hawk. It is this extraordinary metamorphosis, magical and terrifying, that these beautifully written pages record. Using clear and concise language and in-depth, step-by-step demonstrations, author and renowned artist Mary Whyte guides beginning and intermediate watercolorists through the entire painting process, from selecting materials to fundamental techniques to working with models. Going beyond the practical application of techniques, Whyte helps new artists learn to capture not just the model's physical likeness, but their unique personality and spirit. Richly

illustrated, the book features Mary Whyte's vibrant empathetic watercolors and works by such masters of watercolor as Mary Cassatt, Thomas Eakins, Winslow Homer, John Singer Sargent, and Georgia O'Keeffe. A tribute to the groundbreaking drag icons who helped pave the way for the queens of today Drag has officially transcended the underground and exploded into the mainstream. Queens have more visibility than ever, and it's been hard won through decades of perseverance, imagination, and intergenerational support within local drag communities. It's time to honor the queens who paved the way for the new generation of drag and are still carrying out their work today. To create Legends of Drag, a photo book and archive of living drag history, authors Harry James Hanson and Devin Antheus traveled coast to coast, visiting 16 cities to meet 80 legendary entertainers who shared boundless wisdom and powerful anecdotes from their lives. These queens are featured in stunning portraits shot

on location and styled with unique floral elements. Feathers are an evolutionary marvel: aerodynamic, insulating, beguiling. They date back more than 100 million years. Yet their story has never been fully told. In *Feathers*, biologist Thor Hanson details a sweeping natural history, as feathers have been used to fly, protect, attract, and adorn through time and place. Applying the research of paleontologists, ornithologists, biologists, engineers, and even art historians, Hanson asks: What are feathers? How did they evolve? What do they mean to us? Engineers call feathers the most efficient insulating material ever discovered, and they are at the root of biology's most enduring debate. They silence the flight of owls and keep penguins dry below the ice. They have decorated queens, jesters, and priests. And they have inked documents from the Constitution to the novels of Jane Austen. *Feathers* is a captivating and beautiful exploration of this most enchanting object. An essential guide for artists of all levels,

on how to live and work as a creative, from a popular artist and TED speaker. When we're kids, our parents tell us that being creative is fun, fun, fun. But when you decide to turn art into your career, whether that's painting, writing, drawing, or sculpting Edgar Allan Poe out of earthworms, that's when things get tough. Let's be honest. Creativity isn't always fun. It's also hard work. In this insightful and heartfelt guide, artist and speaker Phil Hansen shares his hard-won wisdom from the frontlines of life as a professional creative. Paired with his edgy art, Hansen provides advice for the difficult moments--the slumps, the creative blocks, the times when something you love doesn't resonate with the world--and gives you the pep talk you need to get through the tough times. He also shares helpful tips on how to put yourself in the prime creative mindset, how to build a support system, and how to create art that sells. "Looks at the life and work of San Francisco, California, native Armin Hansen (1886-1957), an early

twentieth-century painter and etcher. Includes approximately 170 illustrations and 25 photographs"-- Book 3 of poems by Erin Hanson (thepoeticunderground.com) including poems written from November 2015 - March 2016. This beautifully illustrated and user-friendly book presents the most up-to-date information available about the natural histories of birds of the Sierra Nevada, the origins of their names, the habitats they prefer, how they communicate and interact with one another, their relative abundance, and where they occur within the region. Each species account features original illustrations by Keith Hansen. In addition to characterizing individual species, *Birds of the Sierra Nevada* also describes ecological zones and bird habitats, recent trends in populations and ranges, conservation efforts, and more than 160 rare species. It also includes a glossary of terms, detailed maps, and an extensive bibliography with over 500 citations. You may feel as though you have seen them before, in a

movie, at the gym, browsing at a yard sale, meandering through the mall, or--more likely--on your trip to Florida. Duane Hanson's life-sized fiberglass and polyester resin sculptures are the spitting images of real, breathing people; they illustrate modern consumer society with equal parts tenderness, humor and horror. This revised edition of Hatje Cantz's best-selling catalogue raisonné, featuring two new essays, documents all phases of Hanson's oeuvre, from his earliest carved wooden replica of Thomas Gainsborough's "The Blue Boy" to the last works he produced before his death in 1996. Regardless of when the works were made, though, Hanson's remarkably lifelike sculptures will always be besieged by schoolchildren and jealously protected by museum guards, for they exude a uniquely magnetic force. Viewers and readers who dare to move in close are rewarded with details that could never be studied so candidly in real life: wrinkles, facial hair, imperfections. And yet Hanson's objective was

never blatant voyeurism, but access to those things we prefer to overlook, to the drabness of everyday life and the ever-present intimation of mortality. Experience the contemporary impressionist landscape paintings of modern artist Erin Hanson. The most comprehensive portrait of art criticism ever assembled, as told by the leading writers of our time. In the last fifty years, art criticism has flourished as never before. Moving from niche to mainstream, it is now widely taught at universities, practiced in newspapers, magazines, and online, and has become the subject of debate by readers, writers, and artists worldwide. Equal parts oral history and analysis of craft, *What It Means to Write About Art* offers an unprecedented overview of American art writing. These thirty in-depth conversations chart the role of the critic as it has evolved from the 1960s to today, providing an invaluable resource for aspiring artists and writers alike. John Ashbery recalls finding Rimbaud's poetry through his first gay

crush at sixteen; Rosalind Krauss remembers stealing the design of *October* from Massimo Vignelli; Paul Chaat Smith details his early days with Jimmy Durham in the American Indian Movement; Dave Hickey talks about writing country songs with Waylon Jennings; Michele Wallace relives her late-night and early-morning interviews with James Baldwin; Lucy Lippard describes confronting Clement Greenberg at a lecture; Eileen Myles asserts her belief that her negative review incited the Women's Action Coalition; and Fred Moten recounts falling in love with Renoir while at Harvard. Jarrett Earnest's wide-ranging conversations with critics, historians, journalists, novelists, poets, and theorists—each of whom approach the subject from unique positions—illustrate different ways of writing, thinking, and looking at art. Interviews with Hilton Als, John Ashbery, Bill Berkson, Yve-Alain Bois, Huey Copeland, Holland Cotter, Douglas Crimp, Darby English, Hal Foster, Michael Fried, Thyrsa Nichols

Goodeve, Dave Hickey, Siri Hustvedt, Kellie Jones, Chris Kraus, Rosalind Krauss, Lucy Lippard, Fred Moten, Eileen Myles, Molly Nesbit, Jed Perl, Barbara Rose, Jerry Saltz, Peter Schjeldahl, Barry Schwabsky, Paul Chaat Smith, Roberta Smith, Lynne Tillman, Michele Wallace, and John Yau. This is the first book dedicated to African powderglass beads, with over 180 photographs of gorgeous pieces from a collection assembled by songwriter Billy Steinberg (co-writer of Madonna's "Like a Virgin"). Most of the pieces showcased in this handsomely designed volume are West African beads often referred to as Bodom or Akoso, and were made by Ashanti and Ewe people in Ghana and Togo during the 19th century using finely ground glass sourced from broken bottles, windows or other beads, creating brightly colorful pieces in shiny colors with a

handmade textural quality. Highly detailed photography by Fredrik Nilsen provides a comprehensive look at the collection, along with texts by scholar Jamey D. Allen about the history, classification and glassmaking technologies employed in the varieties of beads covered in the book. A glossary provided by Allen also makes this a useful reference title. For artists interested in using color in a new way, this two-part book offers a fresh, comprehensive approach to understanding color in painting. Part one starts with the basics and teaches, rung by rung, many concepts including color, value, and the use of red, yellow, and blue to build three-dimensional form. Tools given in part one form the foundation for part two's lessons in "temperature painting," an original method created by the author using warm and cool colors. The instructions are easy to follow, step by step, and fully illustrated with beautiful finished pieces by various artists and the author, an accomplished artist who teaches workshops

nationally and whose commissioned portraits and paintings are in many private collections. Renowned painter Erin Hanson invites you on a visual coast-to-coast tour of the lush, colorful landscapes of America's diverse and fabulous wine country regions. Author John Hanson Mitchell recounts a marathon bicycle trek from Andalusia to the Outer Hebrides, tracing solar myths, sun cults, birds, and flowering plants all along the way. Although Gaylen Hansen was raised on a Utah farm in the 1920s and has lived in rural eastern Washington for five decades, his friendly, whimsical artwork has been exhibited in cities worldwide, including New York, Los Angeles, Berlin, Jakarta, Singapore, and Beijing. Hanson has made photographs that are widely celebrated for their powerful depictions of the American landscape and how it has been transformed and despoiled by our industrial and military culture.... *Wilderness to Wasteland* presents four series of previously unpublished and unexhibited photographs from Hanson's early work"--Book jacket. The Boston College Fine Arts Department highlights the American sculptor Duane Hanson, as part of its Digital Archive of Art resource. An image of Hanson's sculpture entitled "Janitor(s)" is available. Hanson completed the sculpture in 1973 and it is housed at the Milwaukee Art Institute in Milwaukee, Wisconsin. Looking back at her

lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political

roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Loïs Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C.

For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected

American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true

wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives. The Arrivers break into the end floors of the Dungeon of Puriff...only to find themselves in over their heads! It's now their turn to be rescued by a rival party! Thankfully Liberation is able to lend them a hand in their hour of need, but it's an embarrassment that the Arrivers won't soon forget. After making it back to town in one piece, everyone gets wrapped up in their own training... Yet while they're focused on getting stronger, Neme goes missing. Eloquent and provocative drawings, exquisitely reproduced, provide an intimate encounter with these two daring Austrian masters. Gustav Klimt and Egon Schiele were two of the most daring and controversial artists in Vienna during the culturally turbulent decades around the turn of the 20th century. They worked out their provocative depictions of the human body, created in a search for psychological truth as well as physical realism,

in the direct and intimate medium of drawing. In Klimt's studies, the distinctive character or unsettling emotional resonance of the person portrayed comes through in the artist's delicate, sinuous lines. The striking presence of the individual in Schiele's more finished drawings, often rendered with extreme frankness and bold colouration, pulses with dramatic immediacy. Although Klimt was almost thirty years Schiele's senior, he quickly recognized and encouraged the younger artist's extraordinary talent. The sixty important works exquisitely reproduced in large format in this volume reach from each artist's early academic studies to more incisive and unconventional explorations of nature, psychology, sexuality and spirituality. By giving viewers access to these artists' worlds, this album of unforgettable drawings provides a direct connection to the minds of two master draftsmen exploring the limits of representation, as well as the shock of recognition at seeing our own inner lives caught on paper.
