Teach math lessons through the creative means of a life story Provide 36 weeks of instruction based on skill levels rather than grade levels Guide students by the use of inexpensive manipulatives, including index cards, dried beans, and construction paper! We often tend to compartmentalize when teaching children. In real life, there aren't artificial barriers between "subjects." For example, when you are cooking or baking, you have to use the skills of reading, logical thinking, and measuring, just to name a few. In driving a car, you see and read road signs, read maps, and count miles. So why do we say to children, "This is math, this is language, this is about science and nature, and this is history"? The most natural and effective means to teach children is through life examples. Content, story, and the ability to show math in real life make a living math book! This workbook, designed by educators, offers a variety of activities for skill-and-drill practice with the intent of helping children achieve mastery of the mathematical skills necessary to succeed in school. Brighter Child(R) English & Grammar for Grade 4 helps students master language arts skills. Practice is included for parts of speech, sentence writing, punctuation, proofreading, and more. School success starts here! Workbooks in the popular Brighter Child(R) series are packed with plenty of fun activities that teach a variety of essential school skills. Students will find help for math, English and grammar, handwriting, and other important subject areas. Each book contains full-color practice pages, easy-to-follow instructions, and an answer key. Spelling & Writing are a major component of any program. Provide your students with frequent, focused skills practice with this our educational workbook.
