This book analyzes the formation of a mass anarchist movement in Spain over the turn of the twentieth century. In this period, the movement was transformed from a dislocated collection of groups and individuals into the largest organized body of anarchists in world history: the anarcho-sindicalist National Confederation of Labour (Confederación Nacional del Trabajo: CNT). At the same time, anarchist cultural practices became ingrained in localities across the whole of Spain, laying foundations which maintained the movement's popular support until the end of the Spanish Civil War in 1939. The book shows that grassroots print culture was central to these developments: driving the development of ideology and strategy – broadly defined as terrorism, education and workplace organization – and providing an informal structure to a movement which shunned recognized leadership and bureaucracy. This study

offers a rich analysis of the cultural foundations of Spanish anarchism. This emphasis also challenges claims that the movement was "exceptional" or "peculiar" in its formation, by situating it alongside other decentralized, bottom-up mobilizations across historical and contemporary contexts, from the radical pamphleteering culture of the English Civil War to the use of social media in the Arab Spring. Editors: May 1749-Sept. 1803, Ralph Griffiths; Oct. 1803-Apr. 1825, G. E. Griffiths. Pite Saami is a highly endangered Western Saami language in the Uralic language family currently spoken by a few individuals in Swedish Lapland. This grammar is the first extensive book-length treatment of a Saami language written in English. While focussing on the morphophonology of the main word classes nouns, adjectives and verbs, it also deals with other linguistic structures such as prosody, phonology, phrase types and clauses. Furthermore, it provides an introduction to the language and its speakers, and an outline of a preliminary Pite Saami orthography. An extensive annotated spoken-language corpus collected over the course of five years forms the empirical foundation for this description, and each example includes a specific reference to the corpus in order to facilitate verification of claims made on the data. Descriptions are presented for a general linguistics audience and without attempting to support a specific theoretical approach, but this book should be equally useful for scholars of Uralic linguistics, typologists, and even learners of Pite Saami. Pearson IIT Foundation Series, one of the most reliable and comprehensive source of content for competitive readiness, is now thoroughly updated and redesigned to make learning more effective and interesting for students. The Great Lakes region of Africa has seen dramatic changes. After a decade of war, repression, and genocide, loosely allied regimes have replaced old-style dictatorships. The Path of a Genocide examines the decade (1986-97) that brackets the 1994 genocide in Rwanda. This collection of essays is both a narrative of that event and a deep reexamination of the international role in addressing humanitarian issues and complex emergencies. Nineteen donor countries and seventeen multilateral organizations, international agencies, and international nongovernmental organizations pooled their efforts for an in-depth evaluation of the international response to the conflict in Rwanda. Original studies were commissioned from scholars from Uganda, Rwanda, Zaire, Ethiopia, Norway, Great Britain, France, Canada, and the United States. While each chapter in this volume focuses on one dimension of the Rwanda conflict, together they tell the story of this unfolding genocide and the world's response. The Path of a

Genocide offers readers a perspective in sharp contrast to the tendency to treat a peace agreement as the end to conflict. This is a detailed effort to make sense of the political crisis and genocide in Rwanda and the effects it had on its neighbors. CMH Publication 70-30. Edited by Frank N. Schubert and Theresa L. Kraus. Discusses the United States Army's role in the Persian Gulf War from August 1990 to February 1991. Shows the various strands that came together to produce the army of the 1990s and how that army in turn performed under fire and in the glare of world attention. Retains a sense of immediacy in its approach. Contains maps which were carefully researched and compiled as original documents in their own right. Includes an index. The essays in *Emancipating Calvin: Culture and Confessional Identity in Francophone Reformed Communities* demonstrate the vitality and variety of Francophone Reformed communities, examining how local contexts shaped the implementation of reforming ideas emanating from John Calvin and Geneva. Previously published Wiltshire, 1967. *Guide to personal health and success* This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle--as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma, involving elements of both resistance and acquiescence. Published 1892-9, this four-volume collection contains Spanish documents relating to England during the reign of Elizabeth I. The papers were translated and edited by Martin Andrew Sharp Hume (1843-1910), a respected historian of Spain. Volume 3 (1896) covers the period 1580-86, the build-up to the Anglo-Spanish war.
