*A City Is Not a Computer* Nov 16 2022 A bold reassessment of "smart cities" that reveals what is lost when we conceive of our urban spaces as computers Computational models of urbanism—smart cities that use data-driven planning and algorithmic administration—promise to deliver new urban efficiencies and conveniences. Yet these models limit our understanding of what we can know about a city. *A City Is Not a Computer* reveals how cities encompass myriad forms of local and indigenous intelligences and knowledge institutions, arguing that these resources are a vital supplement and corrective to increasingly prevalent algorithmic models. Shannon Mattern begins by examining the ethical and ontological implications of urban technologies and computational models, discussing how they shape and in many cases profoundly limit our engagement with cities. She looks at the methods and underlying assumptions of data-driven urbanism, and demonstrates how the "city-as-computer" metaphor, which undergirds much of today's urban policy and design, reduces place-based knowledge to information processing. Mattern then imagines how we might sustain institutions and infrastructures that constitute more diverse, open, inclusive urban forms. She shows how the public library functions as a steward of urban intelligence, and describes the scales of upkeep needed to sustain a city's many moving parts, from spinning hard drives to bridge repairs. Incorporating insights from urban studies, data science, and media and information studies, *A City Is Not a Computer* offers a visionary new approach to urban planning and design.

**The City** May 18 2020 If humankind can be said to have a single greatest creation, it would be those places that represent the most eloquent expression of our species's ingenuity, beliefs, and ideals: the city. In this authoritative and engagingly written account, the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and, in doing so, attempts to answer the age-old question: What makes a city great? Despite their infinite variety, all cities essentially serve three purposes: spiritual, political, and economic. Kotkin follows the progression of the city from the early religious centers of Mesopotamia, the Indus Valley, and China to the imperial centers of the Classical era, through the rise of the Islamic city and the European commercial capitals, ending with today's post-industrial suburban metropolis. Despite widespread optimistic claims that cities are "back in style," Kotkin warns that whatever their form, cities can thrive only if they remain sacred, safe, and busy—and this is true for both the increasingly urbanized developing world and the often self-possessed "global cities" of the West and East Asia. Looking at cities in the twenty-first century, Kotkin discusses the effects of developments such as shifting demographics and emerging technologies. He also considers the effects of terrorism—how the religious and cultural struggles of the present pose the greatest challenge to the urban future. Truly global in scope, *The City* is a

timely narrative that will place Kotkin in the company of Lewis Mumford, Jane Jacobs, and other preeminent urban scholars.

**City of Girls** Sep 02 2021 AN INSTANT NEW YORK TIMES BESTSELLER! From the # 1 New York Times bestselling author of *Eat Pray Love* and *The Signature of All Things*, a delicious novel of glamour, sex, and adventure, about a young woman discovering that you don't have to be a good girl to be a good person. "A spellbinding novel about love, freedom, and finding your own happiness." - PopSugar "Intimate and richly sensual, razzle-dazzle with a hint of danger." -USA Today "Pairs well with a cocktail...or two." -TheSkimm "Life is both fleeting and dangerous, and there is no point in denying yourself pleasure, or being anything other than what you are." Beloved author Elizabeth Gilbert returns to fiction with a unique love story set in the New York City theater world during the 1940s. Told from the perspective of an older woman as she looks back on her youth with both pleasure and regret (but mostly pleasure), *City of Girls* explores themes of female sexuality and promiscuity, as well as the idiosyncrasies of true love. In 1940, nineteen-year-old Vivian Morris has just been kicked out of Vassar College, owing to her lackluster freshman-year performance. Her affluent parents send her to Manhattan to live with her Aunt Peg, who owns a flamboyant, crumbling midtown theater called the Lily Playhouse. There Vivian is introduced to an entire cosmos of unconventional and charismatic characters, from the fun-chasing showgirls to a sexy male actor, a grand-dame actress, a lady-killer writer, and no-nonsense stage manager. But when Vivian makes a personal mistake that results in professional scandal, it turns her new world upside down in ways that it will take her years to fully understand. Ultimately, though, it leads her to a new understanding of the kind of life she craves - and the kind of freedom it takes to pursue it. It will also lead to the love of her life, a love that stands out from all the rest. Now eighty-nine years old and telling her story at last, Vivian recalls how the events of those years altered the course of her life - and the gusto and autonomy with which she approached it. "At some point in a woman's life, she just gets tired of being ashamed all the time," she muses. "After that, she is free to become whoever she truly is." Written with a powerful wisdom about human desire and connection, *City of Girls* is a love story like no other.

**City of Quartz** Apr 16 2020 This new edition of the visionary social history of Los Angeles is "as central to the L.A. canon as anything that . . . Joan Didion wrote in the seventies" (*New Yorker*) No metropolis has been more loved or more hated. To its official boosters, "Los Angeles brings it all together." To detractors, L.A. is a sunlit mortuary where "you can rot without feeling it." To Mike Davis, the author of this fiercely elegant and wide-ranging work of social history, Los Angeles is both utopia and dystopia, a place where the last Joshua trees are being plowed under to make room for model communities in the desert, where the rich have hired their own police to fend off street

gangs, as well as armed Beirut militias. In *City of Quartz*, Davis reconstructs L.A.'s shadow history and dissects its ethereal economy. He tells us who has the power and how they hold on to it. He gives us a city of Dickensian extremes, Pynchonesque conspiracies, and a desperation straight out of Nathaniel West—a city in which we may glimpse our own future mirrored with terrifying clarity. In this new edition, Davis provides a dazzling update on the city's current status.

*The City of the Sun* Dec 13 2019 *City of the Sun*, written in 1602, is Tommaso Campanella's contribution to the body of literature concerned with utopia, the philosophical search for the perfect society. Campanella's utopia was based on a form of communism in which all possessions, including women and children, were shared by men. The great city was ruled by a spiritual leader named Metaphysic, whom Power, Wisdom, and Love served, overseeing all aspects of the society. Wisdom ensures that the sciences are properly taught, while Love ensures that men and women breed the most perfect children. Those with an interest in philosophy and sociology will find this book an intriguing take on the structure of an ideal society. Italian philosopher and theologian TOMMASO CAMPANELLA (1568-1639) became a monk at the age of fifteen. He was imprisoned for twenty-seven years for conspiring against the Spanish crown, and it was during this time that he wrote his most important works, including *Atheismus triumphatus* (1605) and *Metaphysica* (1609).

**A City for Children** May 30 2021 We like to say that our cities have been shaped by "creative destruction"—the vast powers of capitalism to remake cities. But Marta Gutman shows that other forces played roles in the late nineteenth and early twentieth centuries as cities responded to industrialization and the onset of modernity. Gutman focuses on the use and adaptive reuse of everyday buildings, and most tellingly she reveals the determinative roles of women and charitable institutions. In Oakland, Gutman shows, private houses were often adapted for charity work and the betterment of children, in the process becoming critical sites for public life and for the development of sustainable social environments. Gutman makes a strong argument for the centrality of incremental construction and the power of women-run organizations to our understanding of modern cities.

**The Book of the City of Ladies** Feb 19 2023 In dialogues with three celestial ladies, Reason, Rectitude, and Justice, Christine de Pizan (1365-ca. 1429) builds an allegorical fortified city for women using examples of the important contributions women have made to Western Civilization and arguments that prove their intellectual and moral equality to men. Earl Jeffrey Richards' acclaimed translation is used nationwide in the most eminent colleges and universities in America, from Columbia to Stanford.

What a City Is For Dec 17 2022 An investigation into gentrification and displacement, focusing on the case of Portland, Oregon's systematic dispersal of black residents from its Albina neighborhood. Portland, Oregon, is one of the most beautiful, livable cities in the United States. It has walkable neighborhoods, bike lanes, low-density housing, public transportation, and significant green space—not to mention craft-beer bars and locavore food trucks. But liberal Portland is also the whitest city in the country. This is not circumstance; the city has a long history of officially sanctioned racialized displacement that continues today. Over the last two and half decades, Albina—the one major Black neighborhood in Portland—has been systematically uprooted by market-

driven gentrification and city-renewal policies. African Americans in Portland were first pushed into Albina and then contained there through exclusionary zoning, predatory lending, and racist real estate practices. Since the 1990s, they've been aggressively displaced—by rising housing costs, developers eager to get rid of low-income residents, and overt city policies of gentrification. Displacement and dispossessions are convulsing cities across the globe, becoming the dominant urban narratives of our time. In *What a City Is For*, Matt Hern uses the case of Albina, as well as similar instances in New Orleans and Vancouver, to investigate gentrification in the twenty-first century. In an engaging narrative, effortlessly mixing anecdote and theory, Hern questions the notions of development, private property, and ownership. Arguing that home ownership drives inequality, he wants us to disown ownership. How can we reimagine the city as a post-ownership, post-sovereign space? Drawing on solidarity economics, cooperative movements, community land trusts, indigenous conceptions of alternative sovereignty, the global commons movement, and much else, Hern suggests repudiating development in favor of an incrementalist, non-market-driven unfolding of the city.

**City of Truth** Oct 15 2022 This “delightful” Nebula Award-winning novella about a world without lies has “a sharp, unmerciful edge that would have pleased old Jonathan Swift” (Minneapolis Star-Tribune). Truth reigns supreme in the city-state of Veritas. Not even politicians lie, and weirdly frank notices abound—such as warning: this elevator maintained by people who hate their jobs: ride at your own risk. In this dystopia of mandatory candor, every preadolescent citizen is ruthlessly conditioned, through a Skinnerian ordeal called a “brainburn,” to speak truthfully under all circumstances. Jack Sperry wouldn’t dream of questioning the norms of Veritas; he’s happy with his life and his respectable job as a “deconstructionist,” destroying “mendacious” works of art—relics from a less honest era. But when his adored son, Toby, falls gravely ill, the truth becomes Jack’s greatest enemy. Somehow our hero must overcome his brainburn and attempt to heal his child with beautiful lies. Alternately hilarious and moving, *City of Truth* thoughtfully explores the pitfalls inherent in any attempt to engineer a perfect society.

**City of Stairs** Dec 25 2020 An atmospheric and intrigue-filled novel of dead gods, buried histories, and a mysterious, protean city—from one of America's most acclaimed young fantasy writers. The city of Bulikov once wielded the powers of the gods to conquer the world, enslaving and brutalizing millions—until its divine protectors were killed. Now Bulikov has become just another colonial outpost of the world's new geopolitical power, but the surreal landscape of the city itself—first shaped, now shattered, by the thousands of miracles its guardians once worked upon it—stands as a constant, haunting reminder of its former supremacy. Into this broken city steps Shara Thivani. Officially, the unassuming young woman is just another junior diplomat sent by Bulikov's oppressors. Unofficially, she is one of her country's most accomplished spies, dispatched to catch a murderer. But as Shara pursues the killer, she starts to suspect that the beings who ruled this terrible place may not be as dead as they seem—and that Bulikov's cruel reign may not yet be over.

*The Heart of the City* Aug 21 2020 Downtowns are more than economic engines: they are repositories of knowledge and culture and generators of new ideas, technology, and ventures. They are the heart of the city that drives its future. If we are to have healthy downtowns, we need to understand what downtown is all about; how and why some American downtowns never stopped thriving (such as San Jose and Houston), some have been in decline for half a century (including Detroit and St. Louis), and still others are resurging after temporary decline (many, including Lower Manhattan and Los Angeles). The downtowns that are prospering are those that more easily adapt to changing needs and lifestyles. In *The Heart of the City*, distinguished urban planner Alexander Garvin shares lessons on how to plan for a mix of housing, businesses, and attractions; enhance the public realm; improve mobility; and successfully manage downtown services. Garvin opens the book with diagnoses of downtowns across the United States, including the people, businesses, institutions, and public agencies implementing changes. In a review of prescriptions and treatments for any downtown, Garvin shares brief accounts--of both successes and failures--of what individuals with very different objectives have done to change their downtowns. The final chapters look at what is possible for downtowns in the future, closing with suggested national, state, and local legislation to create standard downtown business improvement districts to better manage downtowns. This book will help public officials, civic organizations, downtown business property owners, and people who care about cities learn from successful recent actions in downtowns across the country, and expand opportunities facing their downtown. Garvin provides recommendations for continuing actions to help any downtown thrive, ensuring a prosperous and thrilling future for the 21st-century American city.

**The City & The City** Aug 01 2021 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE LOS ANGELES TIMES, THE SEATTLE TIMES, AND PUBLISHERS WEEKLY. When a murdered woman is

found in the city of Beszel, somewhere at the edge of Europe, it looks to be a routine case for Inspector Tyador Borlú of the Extreme Crime Squad. To investigate, Borlú must travel from the decaying Beszel to its equal, rival, and intimate neighbor, the vibrant city of Ul Qoma. But this is a border crossing like no other, a journey as psychic as it is physical, a seeing of the unseen. With Ul Qoman detective Qussim Dhatt, Borlú is enmeshed in a sordid underworld of nationalists intent on destroying their neighboring city, and unificationists who dream of dissolving the two into one. As the detectives uncover the dead woman's secrets, they begin to suspect a truth that could cost them more than their lives. What stands against them are murderous powers in Beszel and in Ul Qoma: and, most terrifying of all, that which lies between these two cities. **BONUS:** This edition contains a *The City & The City* discussion guide and excerpts from China Miéville's *Kraken* and *Embassytown*. *What Makes a Great City* Feb 07 2022 One of Planetizen's Top Planning Books for 2017 - San Francisco Chronicle's 2016 Holiday Books Gift Guide Pick What makes a great city? City planner and architect Alexander Garvin set out to answer this question by observing cities, largely in North America and Europe, with special attention to Paris, London, New York, and Vienna. For Garvin, greatness is about what people who shape cities can do to make a city great. A great city is a dynamic, constantly changing place that residents and their leaders can reshape to satisfy their demands. Most importantly, it is about the interplay between people and public realm, and how they have interacted throughout history to create great cities. *What Makes a Great City* will help readers understand that any city can be changed for the better and inspire entrepreneurs, public officials, and city residents to do it themselves.

*How to Kill a City* Nov 04 2021 A journey to the front lines of the battle for the future of American cities, uncovering the massive, systemic forces behind gentrification -- and the lives that are altered in the process. The term gentrification has become a buzzword to describe the changes in urban neighborhoods across the country, but we don't realize just how threatening it is. It means more than the arrival of trendy shops, much-maligned hipsters, and expensive lattes. The very future of American cities as vibrant, equitable spaces hangs in the balance. Peter Moskowitz's *How to Kill a City* takes readers from the kitchen tables of hurting families who can no longer afford their homes to the corporate boardrooms and political backrooms where destructive housing policies are devised. Along the way, Moskowitz uncovers the massive, systemic forces behind gentrification in New Orleans, Detroit, San Francisco, and New York. The deceptively simple question of who can and cannot afford to pay the rent goes to the heart of America's crises of race and inequality. In the fight for economic opportunity and racial justice, nothing could be more important than housing. A vigorous, hard-hitting expose, *How to Kill a City* reveals who holds power in our cities-and how we can get it back.

**City of Women** Sep 14 2022 Hiding her clandestine activities behind the persona of a model Nazi soldier's wife at the height of World War II, Sigrid Schroeder dreams of her former Jewish lover and risks everything to hide a mother and two young children who she believes might be her lover's family. A first novel.

*The Spirit of Cities* Feb 13 2020 A lively and personal book that returns the city to political thought. Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. *The Spirit of Cities* revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They

show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. *The Spirit of Cities* is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.

*The Book of Khartoum* Jan 14 2020 Khartoum, according to one theory, takes its name from the Beja word hartooma, meaning meeting place. Geographically, culturally and historically, the Sudanese capital is certainly that: a meeting place of the Blue and White Niles, a confluence of Arabic and African histories, and a destination point for countless refugees displaced by Sudan's long, troubled history of forced migration. In the pages of this book the first major anthology of Sudanese stories to be translated into English the city also stands as a meeting place for ideas: where the promise and glamour of the big city meets its tough social realities; where traces of a colonial past are still visible in day-to-day life; where the dreams of a young boy, playing in his father's shop, act out a future that may one day be his. Diverse literary styles also come together here: the political satire of Ahmed al-Malik; the surrealist poetics of Bushra al-Fadil; the social realism of the first postcolonial authors; and the lyrical abstraction of the new Iksir generation. As with any great city, it is from these complex tensions that the best stories begin. "An exciting, long-awaited collection showcasing some of Sudan's finest writers. There is urgency behind the deceptively languorous voices and a piercing vitality to the shorter forms. These writers lay claim over the contradictions and fusions of the capital city - Nile and drought, urbanization and village ties, what is African and what is Arab." - Leila Aboulela

**City of Blades** Mar 08 2022 A triumphant return to the world of *City of Stairs*. A generation ago, the city of Voortyasthan was the stronghold of the god of war and death, the birthplace of fearsome supernatural sentinels who killed and subjugated millions. Now, the city's god is dead. The city itself lies in ruins. And to its new military occupiers, the once-powerful capital is a wasteland of sectarian violence and bloody uprisings. So it makes perfect sense that General Turyin Mulaghesh—foul-mouthed hero of the battle of Bulikov, rumored war criminal, ally of an embattled Prime Minister—has been exiled there to count down the days until she can draw her pension and be forgotten. At least, it makes the perfect cover story. The truth is that the general has been pressed into service one last time, dispatched to investigate a discovery with the potential to change the world—or destroy it. The trouble is that this old soldier isn't sure she's still got what it takes to be the hero.

**Never a City So Real** Oct 11 2019 "Chicago is a tale of two cities," headlines declare. This narrative has been gaining steam alongside reports of growing economic divisions and diverging outlooks on the future of the city. Yet to keen observers of the Second City, this is nothing new. Those who truly know Chicago know that for decades—even centuries—the city has been defined by duality, possibly since the Great Fire scorched a visible line between the rubble and the saved. For writers like Alex Kotlowitz, the contradictions are what make Chicago. And it is these contradictions that form the heart of *Never a City So Real*. The book is a tour of the people of Chicago, those who have been Kotlowitz's guide into this city's – and by inference, this country's – heart. Chicago, after all, is America's city. Kotlowitz introduces us to the owner of a West Side soul food restaurant who believes in second chances, a steelworker turned history teacher, the "Diego Rivera of the projects," and the lawyers and defendants who populate Chicago's Criminal Courts Building. These empathic, intimate stories chronicle the city's soul, its lifeblood. This new edition features a new afterword from the author, which examines the state of the city today as seen from the double-paned windows of a pawnshop. Ultimately, *Never a City So Real* is a love letter to Chicago, a place that Kotlowitz describes as "a place that can tie me up in knots but a place that has been my muse, my friend, my joy."

*City of a Million Dreams* Dec 05 2021 In 2015, the beautiful jazz funeral in New Orleans for

composer Allen Toussaint coincided with a debate over removing four Confederate monuments. Mayor Mitch Landrieu led the ceremony, attended by living legends of jazz, music aficionados, politicians, and everyday people. The scene captured the history and culture of the city in microcosm—a city legendary for its noisy, complicated, tradition-rich splendor. In *City of a Million Dreams*, Jason Berry delivers a character-driven history of New Orleans at its tricentennial. Chronicling cycles of invention, struggle, death, and rebirth, Berry reveals the city's survival as a triumph of diversity, its map-of-the-world neighborhoods marked by resilience despite hurricanes, epidemics, fires, and floods. Berry orchestrates a parade of vibrant personalities, from the founder Bienville, a warrior emblazoned with snake tattoos; to Governor William C. C. Claiborne, General Andrew Jackson, and Pere Antoine, an influential priest and secret agent of the Inquisition; Sister Gertrude Morgan, a street evangelist and visionary artist of the 1960s; and Michael White, the famous clarinetist who remade his life after losing everything in Hurricane Katrina. The textured profiles of this extraordinary cast furnish a dramatic narrative of the beloved city, famous the world over for mysterious rituals as people dance when they bury their dead.

*City of Refugees* Apr 09 2022 For readers of *Caste*, this intimate portrait of newcomers revitalizing a fading industrial town illuminates the larger canvas of refugee life in 21st century America. Many Americans imagine refugees as threatening outsiders who will steal jobs or be a drain on the economy. But across the country, refugees are rebuilding and maintaining the American Dream. In *City of Refugees*, journalist Susan Hartman shows how an influx of refugees helped revive Utica, New York, an old upstate manufacturing town that was nearly destroyed by depopulation and arson. Hartman follows 3 of these newcomers over the course of 8 years as they and their families adjust to new lives in America. There's Sadia, a bright, spirited Somali Bantu teenager who rebels against her formidable mother; Ali, an Iraqi translator who creates a home with a divorced American woman but is still traumatized by war; and Mersiha, a hard-working and ebullient Bosnian who dreams of opening a café. They are part of an extraordinary migration of refugees from Vietnam, Bosnia, Burma, Somalia, Iraq, and elsewhere, who have transformed Utica over the past four decades—opening small businesses, fixing up abandoned houses, and adding a spark of vitality to forlorn city streets. Other Rust Belt cities have also welcomed refugees, hoping to jump-start their economies and attract a younger population. *City of Refugees* is a complex and poignant story of a small city but also of America—a country whose promise of safe harbor and opportunity is knotty and incomplete, but undeniably alive.

**The City in History** Mar 16 2020 The city's development from ancient times to the modern age. Winner of the National Book Award. "One of the major works of scholarship of the twentieth century" (*Christian Science Monitor*). Index; illustrations.

*City of Refuge* Jun 30 2021 In the heat of late summer, two New Orleans families—one black and one white—confront a storm that will change the course of their lives. SJ Williams, a carpenter and widower, lives and works in the Lower Ninth Ward, the community where he was born and raised. His sister, Lucy, is a soulful mess, and SJ has been trying to keep her son, Wesley, out of trouble. Across town, Craig Donaldson, a Midwestern transplant and the editor of the city's alternative paper, faces deepening cracks in his own family. New Orleans' music and culture have been Craig's passion, but his wife, Alice, has never felt comfortable in the city. The arrival of their two children has inflamed their arguments about the wisdom of raising a family there. When the news comes of a gathering hurricane—named Katrina—the two families make their own very different plans to weather the storm. The Donaldsons join the long evacuation convoy north, across Lake Pontchartrain and out of the city. SJ boards up his windows and brings Lucy to his house, where they wait it out together, while Wesley stays with a friend in another part of town. But the long night of wind and rain is only the beginning—and when the levees give way and the flood waters come, the fate of each family changes forever. The Williamses are scattered—first to the Convention Center and the sweltering Superdome, and then far beyond city and state lines, where they struggle to reconnect with one another. The Donaldsons, stranded and anxious themselves, find shelter first in Mississippi, then in Chicago, as Craig faces an impossible choice between the city he loves and the

family he had hoped to raise there. Ranging from the lush neighborhoods of New Orleans to Texas, Missouri, Chicago, and beyond, *City of Refuge* is a modern masterpiece—a panoramic novel of family and community, trial and resilience, told with passion, wisdom, and a deep understanding of American life in our time.

**The Book of the City of Ladies** Feb 24 2021 Christine de Pizan (c.1364-1430) was France's first professional woman of letters. Her pioneering *Book of the City of Ladies* begins when, feeling frustrated and miserable after reading a male writer's tirade against women, Christine has a dreamlike vision where three virtues - Reason, Rectitude and Justice - appear to correct this view. They instruct her to build an allegorical city in which womankind can be defended against slander, its walls and towers constructed from examples of female achievement both from her own day and the past: ranging from warriors, inventors and scholars to prophetesses, artists and saints. Christine de Pizan's spirited defence of her sex was unique for its direct confrontation of the misogyny of her day, and offers a telling insight into the position of women in medieval culture. *THE CITY OF LADIES* provides positive images of women, ranging from warriors and inventors, scholars to prophetesses, and artists to saints. The book also offers a fascinating insight into the debates and controversies about the position of women in medieval culture.

**The Death and Life of Great American Cities** Jan 26 2021 Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning...[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

*City of Champions* Sep 21 2020 The changing fortunes of Detroit, told through the lens of the city's major sporting events, by the bestselling author of *Soccernomics*, and a prizewinning cultural critic From Ty Cobb and Hank Greenberg to the Bad Boys, from Joe Louis and Gordie Howe to the Malice at the Palace, *City of Champions* explores the history of Detroit through the stories of its most gifted athletes and most celebrated teams, linking iconic events in the history of Motown sports to the city's shifting fortunes. In an era when many teams have left rustbelt cities to relocate elsewhere, Detroit has held on to its franchises, and there is currently great hope in the revival of the city focused on its downtown sports complexes—but to whose benefit? Szymanski and Weineck show how the fate of the teams in Detroit's stadiums, gyms, and fields is echoed in the rise and fall of the car industry, political upheavals ushered in by the depression, World War II, the 1967 uprising, and its recent bankruptcy and renewal. Driven by the conviction that sports not only mirror society but also have a special power to create both community and enduring narratives that help define a city's sense of self, *City of Champions* is a unique history of the most American of cities.

*City of Inmates* Jun 18 2020 Los Angeles incarcerates more people than any other city in the United States, which imprisons more people than any other nation on Earth. This book explains how the City of Angels became the capital city of the world's leading incarcerator. Marshaling more than two centuries of evidence, historian Kelly Lytle Hernandez unmasks how histories of native elimination, immigrant exclusion, and black disappearance drove the rise of incarceration in Los Angeles. In this telling, which spans from the Spanish colonial era to the outbreak of the 1965 Watts Rebellion, Hernandez documents the persistent historical bond between the racial fantasies of conquest, namely its settler colonial form, and the eliminatory capacities of incarceration. But *City of Inmates*

is also a chronicle of resilience and rebellion, documenting how targeted peoples and communities have always fought back. They busted out of jail, forced Supreme Court rulings, advanced revolution across bars and borders, and, as in the summer of 1965, set fire to the belly of the city. With these acts those who fought the rise of incarceration in Los Angeles altered the course of history in the city, the borderlands, and beyond. This book recounts how the dynamics of conquest met deep reservoirs of rebellion as Los Angeles became the City of Inmates, the nation's carceral core. It is a story that is far from over.
