Honest Answers about the Murder of President John F. Kennedy Jun 15 2022 Thousands of books and articles have been written about the murder of JFK, many of which are large in volume and short on facts. Quite often, these works try to reinvent the wheel, attempting to cover every single area of the assassination, as well as many tangential and unessential points, as well. The reader is often left exhausted and confused by the sheer volume of pages, conflicting facts, and theories leaves one unsatisfied and, quite frankly, not sure what did happen on 11/22/63. This book seeks to separate the wheat from the chaff. It is 55-plus years and it is time for real, honest answers in an easy-to-read and understand format. Proof of a conspiracy; no theories; to-the-point; a perspective on the assassination for the millennial age and beyond. Based on years—decades—of primary source research and having read countless books on the subject.
