She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. For three months in the spring of 1994, the African nation of Rwanda descended into one of the most vicious and bloody genocides the world has ever seen. Immaculée Ilibagiza, a young university student, miraculously survived the savage killing spree that left most of her family, friends, and a million of her fellow citizens dead. Immaculée’s remarkable story of survival was documented in her first book, *Left to Tell: Discovering God Amidst the Rwandan Holocaust*. In *Led By Faith*, Immaculée takes us with her as her remarkable journey continues. Through her simple and eloquent voice, we experience her hardships and heartache as she struggles to survive and to find meaning and purpose in the aftermath of the holocaust. It is the story of a naïve and vulnerable young woman, orphaned and alone, navigating through a bleak and dangerously hostile world with only an abiding faith in God to guide and protect her. Immaculée fends off sinister new predators, seeks out and comforts scores of children orphaned by the genocide, and searches for love and companionship in a land where hatred still flourishes. Then, fearing again for her safety as Rwanda’s war-crime trials begin, Immaculée flees to America to begin a new chapter of her life as a refugee and immigrant—a stranger in a strange land. With the same courage and faith in God that led her through the darkness of genocide, Immaculée discovers a new life that was beyond her wildest dreams as a small girl in a tiny village in one of Africa’s poorest countries. It is*

in the United States, her adopted country, where Immaculée can finally look back at all that has happened to her and truly understand why God spared her life . . . so that she would be left to tell her story to the world. Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. *Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change* explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States. A magical scrapbook of words, pictures and memories, capturing the life of a middle-class black girl growing up in the Midwest in the 1930s and 40s, aspiring to be a writer. Adrienne Kennedy here explores the far-ranging influences on her startlingly original plays, from Vincent Van Gogh to Tennessee Williams, Jane Eyre to Blood Wedding, Lena Horne to Richard Wright, Georgia to Ghana. New York Times bestselling author Tommy Spaulding shows you how looking inwards--and leading with your heart--can transform your life. In his New York Times bestseller, *It's Not Just Who You Know*, world renowned leadership speaker and former CEO of Up with People Tommy Spaulding talked about the power of building genuine and lasting relationships both personally and professionally. In *The Heart-Led Leader*, Spaulding turns his focus to ourselves--to who we are. Authentic leaders, Spaulding says, live and lead from the heart. The values and principles that guide our lives and shape our ability to lead others is far more important than our title, or our ability to crunch numbers, or the impressive degrees we display on our walls. To effect true transformational change, heart-led leaders draw on the qualities of humility, vulnerability, transparency, empathy and love. Illustrated with stories from his own life, and from some of the exceptional leaders he has met and worked with over the years, Spaulding unpacks what those qualities mean, talks about the 18-inch journey from the head to the heart--from our intellect to our emotions--and shows us how to incorporate them into our careers, into how we manage and lead others, and into how we live our lives. It is a vision of leadership that has the power to transform everything we do, and the lives of everyone we touch. The New York Times bestselling and critically acclaimed memoir from cultural icon and culinary standard bearer Alice Waters recalls the circuitous road and tumultuous times leading to the opening of what is arguably America's most influential restaurant. When Alice Waters opened the doors of her "little French restaurant" in Berkeley, California in 1971 at the age of 27, no one ever anticipated the indelible mark it would leave on the culinary landscape—Alice least of all. Fueled in equal parts by naiveté and a relentless pursuit of beauty and pure flavor, she turned her passion project into an iconic institution that redefined American cuisine for generations of chefs and food lovers. In *Coming to My*

*Senses Alice retraces the events that led her to 1517 Shattuck Avenue and the tumultuous times that emboldened her to find her own voice as a cook when the prevailing food culture was embracing convenience and uniformity. Moving from a repressive suburban upbringing to Berkeley in 1964 at the height of the Free Speech Movement and campus unrest, she was drawn into a bohemian circle of charismatic figures whose views on design, politics, film, and food would ultimately inform the unique culture on which Chez Panisse was founded. Dotted with stories, recipes, photographs, and letters, Coming to My Senses is at once deeply personal and modestly understated, a quietly revealing look at one woman's evolution from a rebellious yet impressionable follower to a respected activist who effects social and political change on a global level through the common bond of food. Jimmy and Clara Blair see a strange kite fly over Kitty Hawk, North Carolina, when they meet the kite's owners, Orville and Wilbur Wright, they help them achieve their dream of human flight. A black mother expresses the many hopes and dreams she has for her child in this powerful picture book masterpiece that's perfect for gift-giving. When you are a newborn, I hold your hand and study your face. I cradle you as you drift to sleep. But I know that I will not always hold your hand; not the older you get. Then, I will hold you in my heart And hope that God holds you in his hands. #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 500 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership. THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing*

at once the life of nature, human history, and the mysterious compulsions of the soul. *THINGS FALL APART* is the most illuminating and permanent monument we have to the modern African experience as seen from within. The *Slave Bible* was published in 1807. It was commissioned on behalf of the Society for the Conversion of Negro Slaves in England. The Bible was to be used by missionaries and slave owners to teach slaves about the Christian faith and to evangelize slaves. The Bible was used to teach some slaves to read, but the goal first and foremost was to tend to the spiritual needs of the slaves in the way the missionaries and slave owners saw fit. *Local Voices, Local Choices: The Tacare Approach to Community-Led Conservation* chronicles the stories behind Jane Goodall's holistic approach to conservation in Africa. The *New York Times* bestselling account of one of history's most brutal -- and forgotten -- massacres, when the Japanese army destroyed China's capital city on the eve of World War II In December 1937, one of the most horrific atrocities in the long annals of wartime barbarity occurred. The Japanese army swept into the ancient city of Nanking (what was then the capital of China), and within weeks, more than 300,000 Chinese civilians and soldiers were systematically raped, tortured, and murdered. In this seminal work, Iris Chang, whose own grandparents barely escaped the massacre, tells this history from three perspectives: that of the Japanese soldiers, that of the Chinese, and that of a group of Westerners who refused to abandon the city and created a safety zone, which saved almost 300,000 Chinese. Drawing on extensive interviews with survivors and documents brought to light for the first time, Iris Chang's classic book is the definitive history of this horrifying episode. "Chang vividly, methodically, records what happened, piecing together the abundant eyewitness reports into an undeniable tapestry of horror." - Adam Hochschild, *Salon* !--[if !supportAnnotations]-- !--[if !supportAnnotations]-- !--[endif]-- This international bestseller plumbs recently opened archives in the former Soviet bloc to reveal the accomplishments of communism around the world. The book is the first attempt to catalogue and analyse the crimes of communism over 70 years. This carefully crafted ebook: "*The Extraordinary Life Story of Harriet Tubman*" is formatted for your eReader with a functional and detailed table of contents. As her biographer Sarah H. Bradford mentions, Harriet Tubman is at par with biggest names like Jeanne D'Arc, Grace Darling, and Florence Nightingale in terms of her resilience, courage and do-or-die dedication in liberating her people from the bondages of slavery. Tubman who was herself born into slavery in Maryland in 1822 took over the responsibility of helping and guiding other slaves to freedom after her own escape to Philadelphia in 1849. Traveling by night and in extreme secrecy, Tubman "never lost a passenger". When the Civil War began, Tubman worked for the Union Army, first as a cook and nurse, and then as an armed scout and spy. She was the first woman to lead an armed expedition in the war and to guide the raid at Combahee Ferry, which liberated more than 700 slaves. Excerpt: "The whip was in sight on the mantel-piece, as a reminder of what was to be expected if the work was not done well. Harriet fixed the furniture as she was told to do, and swept with all her strength, raising a tremendous dust. The moment she had finished sweeping, she took her dusting cloth, and wiped everything "so you could see your face in 'em, de shone so," in haste to go and set the table for breakfast, and do her other work. The dust which she had set flying only settled down again on chairs, tables, and the piano. "Miss Susan" came in and looked around...." (*Scenes in the Life of Harriet Tubman*) Sarah H. Bradford (1818–1912) was an American writer, historian and one of the first American women writers to specialize in children's literature, predating better-known writers such as Louisa May Alcott. Bradford was also a very close friend of Tubman and a contemporary of Harriet Beecher Stowe, the author of *Uncle Tom's Cabin*. From one of the country's most respected religion reporters, a paradigm-shifting discussion of how the Religious Left is actually the moral compass that has long steered America's political debates, including today. Since the ascendancy of the Religious Right in the 1970s, common wisdom holds that it is a coalition of fundamentalist powerbrokers who are the "moral majority," setting the standard for conservative Christian values and working to preserve the status quo. But, as national religion reporter Jack Jenkins contends, the country is also driven by a vibrant, long-standing moral force from the left. Constituting an amorphous group of interfaith activists that goes by many names and takes many forms, this coalition has operated since America's founding — praying, protesting, and marching for

common goals that have moved society forward. Throughout our history, the Religious Left has embodied and championed the progressive values at the heart of American democracy—abolition, labor reform, civil rights, environmental preservation. Drawing on his years of reporting, Jenkins examines the re-emergence of progressive faith-based activism, detailing its origins and contrasting its goals with those of the Religious Right. Today's rapidly expanding interfaith coalition — which includes Christians, Jews, Muslims, Buddhists, and other faiths — has become a force within the larger “resistance” movement. Jenkins profiles Washington political insiders—including former White House staffers and faith outreach directors for the campaigns of Barack Obama, John Kerry, and Hillary Clinton—as well as a new generation of progressive faith leaders at the forefront today, including: Rev. William Barber II, leader of North Carolina's Moral Mondays and co-chair of the nationwide Poor People's campaign Linda Sarsour, co-chair of the Women's March Rev. Traci Blackmon, a pastor near Ferguson, Missouri who works to lift up black liberation efforts across the country Sister Simone Campbell, head of the Catholic social justice lobby and the “Nuns on the Bus” tour organizer Native American “water protectors” who demonstrated against the Dakota Access Pipeline in Standing Rock Bishop Gene Robinson, the first openly gay Episcopal bishop An exciting reevaluation of America's moral center and an inspiring portrait of progressive faith-in-action, *American Prophets* will change the way we think about the intersection of politics and religion. A SUNDAY TIMES BOOK OF THE YEAR A TIME 'MUST-READ' 'An extraordinarily thought-provoking memoir that makes a controversial contribution to the fraught debate on race and racism . . . intellectually stimulating and compelling' SUNDAY TIMES A reckoning with the way we choose to see and define ourselves, *Self-Portrait in Black and White* is the searching story of one American family's multi-generational transformation from what is called black to what is assumed to be white. Thomas Chatterton Williams, the son of a 'black' father from the segregated South and a 'white' mother from the West, spent his whole life believing the dictum that a single drop of 'black blood' makes a person black. This was so fundamental to his self-conception that he'd never rigorously reflected on its foundations - but the shock of his experience as the black father of two extremely white-looking children led him to question these long-held convictions. It is not that he has come to believe that he is no longer black or that his daughter is white, Williams notes. It is that these categories cannot adequately capture either of them - or anyone else, for that matter. Beautifully written and bound to upset received opinions on race, *Self-Portrait in Black and White* is an urgent work for our time. Too many companies are managed not by leaders, but by mere role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while “conforming enough.” Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. *Why Should Anyone Be Led By You?* will forever change how we view, develop, and practice the art of leadership, wherever we live and work. Follows the beloved American jazz singer's rise to fame, describing the difficult historical and cultural factors that she overcame. Enslaved African Americans longed for freedom, and that longing took many forms—including music. Drawing on biblical imagery, slave songs both expressed the sorrow of life in bondage and offered a rallying cry for the spirit. *Like a Bird* brings together text, music, and illustrations by Coretta Scott King Award-winning illustrator Michele Wood to convey the rich meaning behind thirteen of these powerful songs. In this astonishing story that “reads like a thriller and is so, so timely” (BuzzFeed) Ariana Neumann dives into the secrets of her father's past: “Like Anne Frank's diary, it offers a story that needs to be told and heard” (Booklist, starred review). In 1941, the first Neumann

family member was taken by the Nazis, arrested in German-occupied Czechoslovakia for bathing in a stretch of river forbidden to Jews. He was transported to Auschwitz. Eighteen days later his prisoner number was entered into the morgue book. Of thirty-four Neumann family members, twenty-five were murdered by the Nazis. One of the survivors was Hans Neumann, who, to escape the German death net, traveled to Berlin and hid in plain sight under the Gestapo's eyes. What Hans experienced was so unspeakable that, when he built an industrial empire in Venezuela, he couldn't bring himself to talk about it. All his daughter Ariana knew was that something terrible had happened. When Hans died, he left Ariana a small box filled with letters, diary entries, and other memorabilia. Ten years later Ariana finally summoned the courage to have the letters translated, and she began reading. What she discovered launched her on a worldwide search that would deliver indelible portraits of a family loving, finding meaning, and trying to survive amid the worst that can be imagined. A "beautifully told story of personal discovery" (John le Carré), *When Time Stopped* is an unputdownable detective story and an epic family memoir, spanning nearly ninety years and crossing oceans. Neumann brings each relative to vivid life, and this "gripping, expertly researched narrative will inspire those looking to uncover their own family histories" (Publishers Weekly). *The Model Rules of Professional Conduct* provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. *Describes Tubman's spiritual journey as she hears the voice of God guiding her north to freedom on that very first trip to escape the brutal practice of forced servitude. Tubman would make nineteen subsequent trips back south, never being caught, but none as profound as this first one. The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY. This history in verse celebrates the story of the Tuskegee Airmen: pioneering African-American pilots who triumphed in the skies and past the color barrier. Chrissy grew up surrounded by the beauty of love and the ugliness of pain. Yet her own home was a haven of warmth, filled with affection and love. Then something happened that tore her away from it. With the flip of a switch, Chrissy fell deeper and deeper into deception where haunting images and songs pointed to one thing: perfection. Longing to be the girl in the song, she became entangled in an obsessive relationship. Before long, secret after secret led her down the path to becoming someone she didn't even recognize. Locked in to an impossible life, Chrissy found release from a surprising direction. *Girl in the Song* tells the gripping, true story of a young woman whose choices led her to despair and incredible triumph. In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people'" (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

An incredibly moving picture book biography of the man behind the hymn "Amazing Grace" and the living legacy of the song. Caldecott Honor-winning author Carole Boston Weatherford and award-winning illustrator Frank Morrison. One stormy night at sea, a wayward man named John Newton feared for his life. In his darkest hour he fell to his knees and prayed—and somehow the battered ship survived the storm. Grateful, he changed his ways and became a minister, yet he still owned a slave ship. But in time, empathy touched his heart. A changed man, he used his powerful words to help end slavery in England. Those words became the hymn "Amazing Grace," a song that has lifted the spirit and given comfort across time and all over the world. Winner of the Coretta Scott King Illustration Award! Eddie is a wounded war veteran, an old man who has lived, in his mind, an uninspired life. His job is fixing rides at a seaside amusement park. On his 83rd birthday, a tragic accident kills him, as he tries to save a little girl from a falling cart. He awakes in the afterlife, where he learns that heaven is not a destination. It’s a place where your life is explained to you by five people, some of whom you knew, others who may have been strangers. One by one, from childhood to soldier to old age, Eddie’s five people revisit their connections to him on earth, illuminating the mysteries of his “meaningless” life, and revealing the haunting secret behind the eternal question: “Why was I here?” Discusses the reckless annihilation of fish and birds by the use of pesticides and warns of the possible genetic effects on humans. Winner of the 2018 National Council on Crime & Delinquency’s Media for a Just Society Awards Winner of the 2017 Goddard Riverside Stephan Russo Book Prize for Social Justice “Valuable . . . [like Michelle] Alexander’s *The New Jim Crow*.” —Los Angeles Review of Books “Susan Burton is a national treasure . . . her life story is testimony to the human capacity for resilience and recovery . . . [*Becoming Ms. Burton* is] a stunning memoir.” —Nicholas Kristof, in *The New York Times* Winner of the prestigious NAACP Image Award, a uniquely American story of trauma, incarceration, and “the breathtaking resilience of the human spirit” (Michelle Alexander) Widely hailed as a stunning memoir, *Becoming Ms. Burton* is the remarkable life story of the renowned activist Susan Burton. In this “stirring and moving tour-de-force” (John Legend), Susan Burton movingly recounts her own journey through the criminal justice system and her transformation into a life of advocacy. After a childhood of immense pain, poverty, and abuse in Los Angeles, the tragic loss of her son led her into addiction, which in turn led to arrests and incarceration. During the War on Drugs, Burton was arrested and would cycle in and out of prison for more than fifteen years. When, by chance, she finally received treatment, her political awakening began and she became a powerful advocate for “a more humane justice system guided by compassion and dignity” (Booklist, starred review). Her award-winning organization, A New Way of Life, has transformed the lives of more than one thousand formerly incarcerated women and is an international model for a less punitive and more effective approach to rehabilitation and reentry. Winner of an NAACP Image Award and named a “Best Book of 2017” by the Chicago Public Library, here is an unforgettable book about “the breathtaking resilience of the human spirit” (Michelle Alexander). The #1 international best seller *In Lean In*, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of *Option B* with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to “sit at the table,” seek challenges, take risks, and pursue their goals with gusto. *Lean In* continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can’t do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, *Lean In* is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential. A stirring new portrait of one of the most important black leaders of the twentieth century introduces readers to the fiery woman who inspired generations of activists. (Social Science) A Best Book of 2021 by NPR and *The Washington Post* Part graphic novel, part memoir, *Wake* is an imaginative tour-de-force that tells the “powerful” (*The New York Times Book Review*) story of women-

led slave revolts and chronicles scholar Rebecca Hall's efforts to uncover the truth about these women warriors who, until now, have been left out of the historical record. Women warriors planned and led revolts on slave ships during the Middle Passage. They fought their enslavers throughout the Americas. And then they were erased from history. Wake tells the "riveting" (Angela Y. Davis) story of Dr. Rebecca Hall, a historian, granddaughter of slaves, and a woman haunted by the legacy of slavery. The accepted history of slave revolts has always told her that enslaved women took a back seat. But Rebecca decides to look deeper, and her journey takes her through old court records, slave ship captain's logs, crumbling correspondence, and even the forensic evidence from the bones of enslaved women from the "negro burying ground" uncovered in Manhattan. She finds women warriors everywhere. Using a "remarkable blend of passion and fact, action and reflection" (NPR), Rebecca constructs the likely pasts of Adono and Alele, women rebels who fought for freedom during the Middle Passage, as well as the stories of women who led slave revolts in Colonial New York. We also follow Rebecca's own story as the legacy of slavery shapes her life, both during her time as a successful attorney and later as a historian seeking the past that haunts her. Illustrated beautifully in black and white, Wake will take its place alongside classics of the graphic novel genre, like Marjane Satrapi's *Persepolis* and Art Spiegelman's *Maus*. This story of a personal and national legacy is a powerful reminder that while the past is gone, we still live in its wake.
