A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country! Explore Egyptian Gods It is tempting to see ancient Egyptian religion as something relatively static, with a single pantheon whose nature and activities did not change throughout the three-thousand-year span of the Dynastic Period. However, nothing could be further from the truth. Throughout Egyptian history, we see that gods who had once been favored were set aside or had their roles altered in order to make way for gods whose cults became more popular, while political changes, such as the conquest of Egypt by Alexander the Great, ushered in cultural and religious exchanges that both affected native Egyptian religious practices and also had an impact on the religious beliefs of Greece and Rome. Because the Egyptian pantheon is vast, even if one leaves out the syncretized deities, it is not possible for this volume to present a comprehensive overview of ancient Egyptian religion and myth. Instead, only a select number of deities and concepts are discussed here. Some of these are more well-known deities, while others might not be as familiar to modern readers. However, this book still offers a fascinating glimpse into ancient Egyptian religion and culture and the richness that was life in ancient Egypt. Within this book, you'll find the following the Egyptian gods and topics covered: Amen (Amun, Amon, Ammon) Anubis (Anpu, Inpw) Aten (Aton) Atum (Tum, Tem, Atem, Temu) Bastet (Bast, Boubastis, Pasht) The Book of the Dead and Other Funerary Texts The Four Sons of Horus Geb (Seb, Keb, Kebb, Gebb) Hapy (Hapi) Hathor Horus (Hor, Her, Heru, Har) Imhotep (Imouthes) Isis Khnum (Chnum) Khonsu (Khons, Chons) Maat (Ma'at, Ma'et, Mayet) Nefertem (Nefertum) Neith (Neit) Nephthys (Nebt-het) Nun (Noun, Nu) The Ogdoad of Hermopolis Osiris Ptah Ra (Re, Pre) Serapis (Sarapis, Userhapi) Set (Seth, Sutekh) Sobek (Suchos) Thoth And more! What did he teach throughout his life? Was he a prophet or a warlord? Did Mohammed actually marry a nine-year-old girl? Is Islam a religion of peace or of violence? How do you read and interpret the Quran? Was the Quran actually written by Mohammed as an inspired book that cannot be altered?

Why are the laws and practices of Islam the same as they were in the 7th century? What is ISIS? Where did they come from and what do they want? Are terrorists and fundamentalist actually following the Quran? Does the Quran teach of an apocalypse? Do fundamental Muslims want a global war and why? Does the Quran really support polygamy, marriage to children, animal sacrifice, slavery, and such cruelty as stoning, beating, amputation and decapitation? Why are so many believers eager to kill and die for Islam? Do Muslims actually believe there will be 70 virgins for each man in heaven? What is the truth the faithful know and will not say? In this book we will answer all of these questions and more. We will use direct quotes from major clerics and the Quran to reveal the truth about Islam. We will see that some sects of Islam are full of love and peace, living deep and mystical lives, while other's breed hate and contempt. We will discuss the differences between these paths. We will look into the plans of fundamental clerics to take over Europe and then the U.S. and see why they are so sure of their success they do not bother to hide their agenda or strategy. Can they be stopped? Included here are the answers to all these questions along with a copy of the Quran in English and instruction on its interpretation so each statement can be checked and verified. You will learn about the rule of Abrogation that clerics use to properly interpret the Quran. We will see how this one rule has obscured the true meaning of the faith from those not deeply familiar with Islam. In the end, you will understand what is happening in the world and why. This is a short guide aimed at helping non-Muslims of different beliefs and backgrounds to understand the foundations of Islām, what is required of Muslims by their faith, their duties towards non-Muslims and the societies within which they live. It addresses the historical foundations of the ideology of al-Qaeda and ISIS, the nature of the deviation of these groups and the Islāmic judgement regarding them.
