**Handbook of Literacy in Akshara Orthography
Apr 13 2022 This volume examines the unique characteristics of akshara orthography and how they may affect literacy development and problems along with the implications for assessment and instruction. Even though akshara orthography is used by more than a billion people, there is an urgent need for a systematic attempt to bring the features, research findings, and future directions of akshara together in a coherent volume. We hope that this volume will bridge that gap. Akshara is used in several Indic languages, each calling it by a slightly different name, for example 'aksharamu', in Telugu, 'akshara' in Kannada, and 'akshar' in Hindi. It is the Bhrami-derived orthography used across much of the Indian subcontinent. There is a growing body of research on the psycholinguistic underpinnings of learning to read akshara, and the emerging perspective is that akshara, even though classified as alphasyllabaries, abugida, and semi-syllabic writing systems, is neither alphabetic**

nor syllabic. Rather, akshara orthography is unique and deserves to be a separate classification and needs further investigation relating to literacy acquisition in akshara. The chapters in this volume, written by leading authors in the field, will inform the reader of the current research on akshara in a coherent and systematic way.

Voice Technologies for Speech Reconstruction and Enhancement Apr 20 2020 The book explores new ways to reconstruct and enhance speech that is compromised by various neuro-motor disorders - collectively known as "dysarthria." The authors address some of the extant lacunae in speech research of dysarthric conditions: they show how new methods can improve speaker recognition when speech is impaired due to developmental or acquired pathologies; they present a novel multi-dimensional approach to help the speech system both assess dysarthric speech and to perform intelligibility improvement of the impaired speech; they display well-performing software solutions for developmental and acquired speech

impairments, and for vocal injuries; and they examine non-acoustic signals and muted nonverbal sounds in relation to audible speech conversion.

Postcolonial Poetry in English Aug 17 2022 The Oxford Studies in Postcolonial Literatures series (general editor: Elleke Boehmer) offers stimulating and accessible introductions to definitive topics and key genres and regions within the rapidly diversifying field of postcolonial literary studies in English. Postcolonial Poetry in English provides a comprehensive introduction to the development of English poetry in all the regions that were once part of the British Empire. The idea of postcolonial poetry is held together by three factors: the global community constituted by English; the creative possibilities accessible through English; and patterns of literary development common to regions with a history of recent decolonization. In showing how diverse

poetic traditions in English evolved from dependency to varying degrees of cultural self-confidence, the book answers two broad questions: how is postcolonial studies relevant to the interpretation of poetry, and how does poetry contribute to our idea of postcolonial writing? The book is divided into three parts: the first works out a method of analysis based on recent publications of outstanding interest; the second narrates the development of poetic traditions in Asia, Africa, and the Caribbean, and the settler colonies of Canada, South Africa, Australia, and New Zealand; the third analyses key motifs, such as the struggle for minority self-representation; the cultural politics of gender, modernism, and postmodernity; and the experience of migration and self-exile in contemporary Anglophone societies. Postcolonial Poetry in English provides a succinct and wide-ranging introduction to some of the most exciting poetic writing of the twentieth century. It is ideally suited for readers interested in world writing in English, contemporary literature, postcolonial writing, cultural studies, and postmodern culture.

***Arun Kolatkar and Literary Modernism in India* Jan 22 2023 In this first scholarly work on India's great modern poet, Laetitia Zecchini outlines a story of literary modernism in India and discusses the traditions, figures and events that inspired and defined Arun Kolatkar. Based on an impressive range of archival and unpublished material, this book also aims at moving lines of accepted genealogies of modernism and 'postcolonial literature'. Zecchini uncovers how poets of Kolatkar's generation became modern Indian writers while tracing a lineage to**

medieval oral traditions. She considers how literary bilingualism allowed Kolatkar to blur the boundaries between Marathi and English, 'Indian' and 'Western sources; how he used his outsider position to privilege the quotidian and minor and revived the spirit of popular devotion. Graphic artist, poet and songwriter, storyteller of Bombay and world history, poet in Marathi, in English and in 'Americanese', non-committal and deeply political, Kolatkar made lines wobble and treasured impermanence. Steeped in world literature, in European avant-garde poetry, American pop and folk culture, in a 'little magazine' Bombay bohemia and a specific Marathi ethos, Kolatkar makes for a fascinating subject to explore and explain the story of modernism in India.
